No Time Now to Talk Peace, President Believes

Washington, Aug. 7.—President Wilson had a long conference yesterday with Senator Lewis, the Democratic whip, urged haste in the final enactment of the food control bill and revenue bill, and is understood to have indicated that he does not consider the present time opportune for discussion of peace negotiations with Germany.

Senator Lewis would not discuss the latter phase of his conference, but it was believed the President indicated that he did not consider Germany's recent peace feelers to be genuine and that he can be expected to inform the country when he believes the time has come for discussing peace.

RED CROSS GETS NEW AUXILIARY

National Surgical Dressings Committee Is Affiliated With It

Washington, Aug. 6.—Ever since the Red Cross War Council was appointed by President Wilson, earnest efforts have been made to secure effective co-operation with the Red Cross by all the allied war relief organizations.

"The Red Cross is very much gratified to be able to announce that the National Surgical Dressings Committee, one of the most important of the relief organizations called into being by the European War, has become an auxiliary of the American Red Cross. This arrangement was perfected after protracted negotiation between Mrs. Mary Hatch Willard, the organizer and chairman of the Surgical Dressings Committee, and Judge Robert S. Lovett, chairman of the Red Cross Committee on Co-operation.

"It is believed that this is the precursor of arrangements to be made whereby other war relief organizations may become allies of the Red Cross and join with it in carrying a practical message of aid and relief among those of our own people and our allies who may be sick, wounded and suffering because of the war.

"The National Surgical Dressings Committee has done a marvelous work. It has made and forwarded over 1,000,000 surgical dressings for use in over 1,500 hospitals in the continent of Europe. Its aim has been to prepare dressings with special reference to the particular needs in different localities, and its work has been handled with great efficiency and with splendid spirit. The committee has about 25,000 working members in different parts of the United States.

"The arrangement with the Red Cross provides that the Surgical Dressings Committee shall retain its name and organization, but carry on its present work in the United States as a national auxiliary of the Red Cross. It may solicit funds in its own name, but no solicitation shall be made in the name of the Red Cross unless all the proceeds therefrom are turned over to the Red Cross organization.

"The French section of this committee will become the Surgical Service Department of the American National Red Cross. It will administer in France all the surgical dressings work of the Red Cross, and will be in charge of Mrs. C. K. Austin, heretofore director in Paris of the French section of the Surgical Dressings Committee.

Kaiser Picked Ministers From Conservative Ranks

Copenhagen, Aug. 7.—The new ministers in the German cabinet have been recruited largely from the conservative ranks, the Prussian under-secretaries and heads of the provincial treasuries being traditionally of the political persuasion. Exceptions are the parliamentarians Von Krause, national vice-president of the Prussian diet, who, however, belongs to the conservative wing of the party, and Dr. Peter Spahn, the aged Catholic leader whose health is so poor that it is doubtful whether he will be able to stand the strain of ministerial labors.
