PERRY COUNTY FARM BUREAU

Progressive Agriculturists of District Taking Steps to Perfect Organization

Marysville, Pa., Aug. 8.—A Perry county farm bureau is the aim now of progressive farmers of the county who desire to remedy the conditions that have made Perry one of the half-dozen Pennsylvania counties without such an institution. Preliminary steps are now under way and the bureau is expected to be organized within the next several weeks to secure the desired results.

One prominent farmer to-day said that speakers from the Department of Agricultural Extension of Pennsylvania State University will assist in this educational and publicity campaign within the next several weeks. They will attend some of the larger picnics and reunions, where they will be given opportunities to address the tillers of the soil in large numbers.

Extension Director McDowell, of State College, has written that they will be glad to send some men to explain extension work and the activities of county farm bureaus and county agents. Mr. McDowell says that at the present time there are only about a half-dozen working organizations in operation and that some of these counties are working on the matter.

The local camp had planned a big time for the meeting, but on account of the war these plans had to be curtailed. One feature of the proposed entertainments was a street parade. The place for next year's sessions will be decided upon at the convention.

MOBILIZATION OF ARMY PLANNED

Regulars Only 2,000 Short of Their Full War Strength

Washington, Aug. 8.—Provost Marshal General Crowder and his assistants are at work on the final set of regulations to be promulgated this week to complete the organization of the selective draft war army. They will govern the actual mobilization of the men selected.

Statements issued to-day by the War Department show that preliminary figures place the total force of National Guard taken into the Federal service August 5 at 13,093 officers and 419,834 men. Another statement showed that 180,766 war volunteers have been recruited for the regular service since April 1, leaving only about 2,000 vacancies in the regulars at war strength.

FOREMAN RETURNS TO DUTY
Enola, Pa., Aug. 8.—David Paul Blosser has returned to Hagerstown after a visit to his family at his place. Mr. Blosser is night foreman at the enginehouse of the Cumberland Valley and Norfolk and Western Railroads. He was transferred to this position about a month ago from the local enginehouse. He is a graduate of the Enola High school and attended the F. R. apprentice school for mechanical engineers at Harrisburg.

REAL ESTATE TRANSFERS
Enola, Pa., Aug. 8.—Real estate transfers in Enola and East Pennsboro township for the last week are as follows: Annie E. Miller to John A. Smith, property, consideration, \$3,750; G. R. be established in France from which regiments at the front will be kept filled up, drafts of men from the main recruit depot in this country being sent over to this distribution center as needed. In the same way, sick or wounded men will be returned to the front when recovered, and a steady flow of recruits to maintain active regiments at top fighting efficiency will be provided in this way.

The only hint of the probable method of mobilization of drafted men lies in a recent ruling by General Crowder which shows that the Adjutant General may summon the quotas of the district in increments, equal parts is suggested, each part to be called up separately as needed.

Under this arrangement it would be possible to call out at once the men to form the new National Army and to summon later those who are to compose the reserves for all elements of the army. Men temporarily needed in harvest fields or elsewhere could be classified by local boards into these later increments to meet emergency situations in their districts without delaying organization of new forces.

These figures mean that approximately 725,000 men are now under arms, exclusive of the navy and Marine Corps, to be supplemented with in the next few weeks by 657,000, raised under the selective draft act. Of the latter number about 500,000 will compose the third great element of the war army—the National Army—and the remainder will go to fill up the regulars and the Guard and their reserves.

It is regarded as likely that the mobilization regulations soon to be issued will show that the surplus of drafted men is to be used as a recruit reservoir, and that all the men will be put under training as quickly as possible. A recruit depot will

Butchers' Remedy Is Two Fish Days a Week

Minneapolis, Minn., Aug. 8.—Two fish days a week instead of two meatless days, were urged by the United Master Butchers of America in the opening session of the annual convention at the West Hotel yesterday.

They also recommended legislation for lower prices of fresh and frozen fish, remarking that they cost "little or nothing" in excess of any previous year. It is believed that to-morrow's government report will show a possible yield of 2,500,000 bushels of corn against 2,582,000,000 last year.

Wheat thrashing has started and thus far the yields have exceeded expectations. An average of forty bushels to the acre is reported from some parts of Illinois.
