Price and Performance! Costs Less!! Acts Better!!!

The new balance we have attained in the Willys Six whereby we combine greater power with sturdier light weight makes it a snappier, livelier car—and easier to handle.

We want you to compare its performance with cars costing around \$1600—the price of the Willys Six is \$1295.

That's considerably less—and see if you don't consider the Willys Six a better performer.

Also the Willys Six stands out as one of the season's smartest cars in a comparison of appearance.

It would be hard to design a more beautiful car at any price—new double cowl body—slanting windshield—long low racy lines.

It acts the part and looks the part of a \$1600 Six—think of the excess value at \$1295!

45-horsepower motor, L-head type of high power 120-inch wheelbase 48 x 2 1/2-inch cantilever rear springs 33 x 4 1/2-inch tires, non-skid rear Two disappearing auxiliary seats in tonneau

\$1295
