Soldier Rejected by Guard Enlists in Regular Army

Mechanicsburg, Pa., Aug. 14.—Owing to the absence of several teeth, Robert H. Thomas, III, a member of the Machine Gun Company, Eighth Regiment, Infantry, Pennsylvania National Guard, who was in Mexican border service last year, was rejected at the last examination. Nothing daunted, Thomas hastened home, had some fine dental work done and went to Gettysburg where he was again examined and passed in fine shape. This was what he wanted, as for some time past it was his desire to be enlisted in the United States Army. Colonel Hersey, of the Fifty-eighth United States Infantry, assigned him to the Headquarters Company as a mounted orderly. This company is composed of orderlies, stenographers and clerks to the regular officers, also a band. Robert H. Thomas, III, has had considerable experience as a newspaperman and is one of the proprietors of the Mechanicsburg Daily Journal. A letter to his mother yesterday tells of his success and delight at his acceptance.

Potato Patches in Franklin Co. Ruined by June Hail

Waynesboro, Pa., Aug. 14.—It is said that the potato patches devastated by the hail storm June 6, will not yield anything like a full crop, not even a half crop. Some planters have taken up some of the spuds and in many hills find but a single potato, and of inferior size and quality. This cannot be accounted for except in a general way by charging it up to the hail, which whacked off the first growth of tops when they were four or six inches high. But this leaves the cause unexplained. Nothing like it ever happened in anybody's experience in this vicinity.

REAL ESTATE MAN HELD

Carlisle, Pa., Aug. 14.—Judge Sadtler, in a special opinion, dismissed the habeas corpus action brought by John C. PLAN MEETING ON ANNEXATION

West Shore Firemen's Union Calls Community Together on Harrisburg Question

A community meeting for all persons interested in the proposed annexation to Harrisburg will be held next Monday night in the town hall at Wormleysburg. This was decided on last night at the monthly meeting of the West Shore Firemen's Union held in the Midway engine house. Several speakers from Harrisburg will be present and the residents of the West Shore will be invited to express their views on the matter. It is expected that the outcome of this big community meeting will be other meetings to be held in various districts and districts interested. It is hoped to have the question well enough in hand to be placed before the voters of the "cross river section" at the fall election in November. J. Fred Hummel, president of the union, will preside at the meeting and he has been instructed by the union to secure the names of town speakers. John E. Myers was appointed chairman on a committee to advertise the matter and in charge of the distribution of posters advertising the meeting, in each district. The remainder of the committee consists of one man from each of the seven districts. They are: Walter P. Lantz, West Fairview; W. C. Seigmund, Camp Hill; Horace H. Enola; L. L. Hammacher, Lehigh; G. W. H. Wilson, New Cumberland; J. G. Shaffer, Wormleysburg; and J. H. Albright, Midway. The matter of annexation was discussed at length, although the other important matters now before the union were also brought up. The committee appointed to confer with the Valley Railways Company regarding the extension of the transfer limit from West Fairview Square to Enola, reported that progress had been made on this question and that it will be placed before the company in the near future. Another matter discussed was the bridge question at Lemoyne. The viaduct over the Cumberland Valley railroad and the one over the Philadelphia and Reading Company are complained of by the union. Several changes as to the approach and the possibility of replacing the wooden structures with more permanent ones were proposed. The aid of the State Highway Department has been asked in securing some of these changes. It was also decided by the union to have one member of the association and two members of each of the seven companies in the district appointed on a committee to look after the families of soldiers of the West Shore and report any case of need to the proper authorities. L. J. Hammacher, of Lemoyne, was elected as a delegate to represent the union at the annual state firemen's convention at Butler in October. The next meeting will be held at Camp Hill.

A special train which had taken the men to Selma, Mo., fifteen miles east of here, where they had been stranded since Sunday, left last night for an eastern destination.

Pay Your Bills Promptly!

It's a Patriotic Duty

- The welfare of the country depends upon sound business. The sound conduct of business depends upon circulation of money. And the constant circulation of money depends upon prompt payment of bills. Now, more than ever before, is your help needed in this direction. Producers of raw materials have cut down discounts and credit terms to the manufacturer—the manufacturer to the jobber—the jobber to the dealer—and the dealer must look to you for co-operation. And upon the promptness with which you pay him, depends his prices to you. For if you delay, and he is obliged to borrow money to pay the jobber for the things for which you owe him, his cost of doing business is going to go up, and he will have to get more for his goods to meet the increased expense. Of course you are good for the bill you receive—you have the money in the bank to pay it—and you'll send a check "one of these days"—but that doesn't help the dealer. Get a check off to him right away—keep the money in circulation—do your bit toward sound business—help preserve the welfare of the country. And if you want to go a step further—arrange for shorter credit periods—tell your dealer to render bills every week or two weeks instead of monthly. But above all else—pay your bills promptly. It's a patriotic duty.
