Camps of Order in Cumberland County Endorse Country's Action in the War

Enola, Pa., Aug. 15.—Resolutions endorsing the country's action in the great world crisis and placing the use of the resources of the organization at the use of the President to bring the conflict to a successful termination were passed at the annual convention of the P. LATE NEWS FROM THE CUMBERLAND VALLEY

GRANGERS' PICNIC TO BE REVIVED

Two Days' Exhibit of Machinery, Fruits and Flowers at Williams Grove, Aug. 29-30

Mechanicsburg, Pa., Aug. 15.—Williams Grove will again be the scene of the Grangers' Picnic, even though for a time it seemed an impossibility, owing to the railroads being unable to handle the exhibitors' large machinery, such as tractor engines and sawmills, and the fact that the manager, Robert H. Thomas, sd., who succeeded his father, is now at Gettysburg in the regular army and has partially made the picnic plans. These will be continued and executed by Forrest Mercer, who has been connected with the picnic in former years.

Arrangements are completed to hold the forty-fourth Grangers' Picnic at Williams Grove on August 29 and 30. This will be a get-together meeting for the grangers and their friends and will be a basket picnic on the plan of the first one started by the late Colonel R. H. Thomas.

There will be a fine display of dairy machinery and farm implements. In horticultural hall will be a large and instructive display of fruits, flowers and plants, in charge of W. J. Kimmel, secretary of the Dairymen's League of Dauphin and Cumberland Counties. Each grange will contribute to the exhibition.

There will be meetings each day of particular interest to farmers. The present emergency legislation and its bearing upon the farm will be discussed by speakers of national reputation. John McSparran, master of the state grange; Leonard Rhone, William T. Creasy and E. B. Dorsett will make addresses. Committees of all the nearby counties, county granges and dairymen's leagues will co-operate.

The following granges are represented in the county: Cumberland Grange, No. 16, Monroe Grange, Penn Grange, Mifflin Grange, Plainfield Grange, Middle Spring Grange, Newton Grange and Hogestown Grange.

MAXWELL

Most Miles per Gallon Most Miles on tires

The Maxwell is mechanically right. All the world knows that today. Why? A Maxwell stock car went 22,022 miles without stopping the motor —1092 Maxwells in our May gasoline economy contest averaged 27.15 miles on one gallon each. 2040 Maxwells in our June contest averaged 29.04 miles on one gallon each. If the standardized, one model Maxwell were not mechanically right these achievements would have been impossible. Isn't that the kind of efficiency—the kind of economy—you want in YOUR car?

Eat Less Meat—Eat More Whole Wheat

That is the way to save money, save strength, save health, save food. There is plenty of food for all the people if you will cut out the expensive, indigestible food that contains the least nutriment. The whole wheat is the most perfect food given to man. It contains all the elements needed for building healthy tissue and furnishing energy for the human body. But be sure you get the whole wheat grain in a digestible form.

Shredded Wheat Biscuit

is 100 per cent. whole wheat and is made digestible by steam-cooking, shredding and baking. You will want to do your bit in preventing the waste of the great food staples. Make Shredded Wheat your "war bread." It contains more real, body-building nutriment than meat, eggs, or potatoes, and costs much less. Two or three of these little loaves of baked whole wheat with milk or cream make a nourishing meal at a cost of a few pennies. Delicious with sliced bananas, peaches, berries or other fruits.
