German Paper Declares
Sympathy With Desire...
For Peace Must Disappear

By Associated Press
Amsterdam, Aug. 16.—The Kruz Zeitung, of Berlin, a copy of which has been received here, says sympathy with the Pope's wish for peace must disappear when it is seen that he has united himself with such conditions as restorations and no indemnities.

The Berlin Tagelische Rundschauc considers that the nature of the peace outlined by the Pope must compel the central powers to refuse the office of the pontiff. This newspaper says it fears the affair will have an unhappy. Influence not only in Austria but among the Catholics in Germany. The Kohinsche Zeitung refrains from full comment until the full text of the Pope's note is obtained. Nevertheless it considers the proposal to enter into negotiations on the basis of the pontiff program should not be rejected. This newspaper assets that it is not aware of the German government's attitude, but it believes logic prescribes that the government, in conformity with its previous attitude, should follow the path indicated by the fear of peace, as are adminated by the fear of peace, as the static power than the man arm, a gun, or the little things nt noticeable to a civilian the position of an arm, a gun, or the little things nt noticeable to a civilian the position of an arm, a gun, or the little things nt noticeable to a civilian the problem as usual and the order to take down canvas will be given as soon as they return from breakfast. Officers say the taking down and packing of the tents is but a small detail compared with their erection. As the experienced military men of the city commented of the tents is but a small detail com

should follow the path indicated by the pontiff.

"The German people and government have the will and courage for peace," says the Kolnische Zeitung. The entente people also earnestly desire peace but the enemy governments are dominated by the fear of peace, as is proved by their refusal to front passports to their nationals to attend the Stockholm conference. The Pope's proposal will thus be another test of which side cherishes a sincere desire for peace."

The Cologne Volkszeitung also awaits the text of the proposal, but expresses the hope that, notwithstanding all obstacles, the road to the reconciliation of the nations may be paved by the Pope's appeal.

This is equal to one bushel extra for every man, woman and child in the country.

In order to avoid waste, officials of the Department of Agriculture suggest two ways of taking care of this large increase:

First, all housewives are urged to use potatoes as far as possible as a substitute for breadstuffs.

Second, to preserve the potatoes for winter use by home storage.

These measures, it is stated, will not onty use the potatoes to advantage, but will save wheat.

It is false economy to buy a piece of ice that will not last over the 24 hours.

Should the refrigerator get warm, because the quantity of ice has been greatly reduced,—it takes a considerable portion of the next delivery to again reduce temperatures.

The amount of foodstuffs you will loose on account of not keeping the ice chamber well filled will frequently amount to more than the original cost

Remember the more Alspure Ice you buy the less you will eventually use.
