FEW OPPOSING WAR INSURANCE

Administration Forces Seek Early Passage of Bill to Protect Soldiers

Washington, Aug. 20.—Administration forces will make every effort to secure an early passage in Congress of the bill providing for war risk insurance. With more and more members lining up to the support of the measure, it is thought it can be rushed through with only slight opposition.

The chief objection raised by insurance men who are interested in seeing the bill defeated is that it is undemocratic in that it permits soldiers of independent means to purchase insurance not accessible to others.

Mr. McAdoo attributes many of the demanded exemptions to the fact that no arrangement has as yet been made properly to care for the dependents of the soldiers. He points out that no man can be expected to profess his services if he does not know that during his absence, and in event of his death or disability, his loved ones will be protected from want.

It is further argued that any objection to the act on the grounds that it is not based on sound business principles is absurd, inasmuch as the insurance end will be handled after the plan of the large insurance companies, except that no loadings of premiums in excess of the actual business will prove expensive to the Government.

his fact can be accounted for by the better method of distribution offered by the plan. While in some cases the amount paid to an injured soldier or to his family in case of death would be less, the money would amount to, in the case of large families, a sum is to be added for each member, so that they will receive a far greater income.

Carlisle Officer Has Good Record in U. S. Army

Carlisle, Pa., Aug. 20.—On a short furlough before going to Little Rock, Ark., where he will be in charge of a company of the new national army, Captain Frank E. Bobb is visiting his parents, Mr. and Mrs. Clarence Bobb, here. He is a nephew of the late Colonel John G. Bobb, formerly of Harrisburg.

Captain Bobb, although but 36 years old, has an interesting army history and rose from the ranks to the position which he now holds. He enlisted in Company G of the Eighth Pennsylvania Volunteer Infantry during the Spanish-American War and later enlisted in Company C of the Twenty-first United States Infantry and served in the Philippines. He was also in the Ninth and Second United States Infantry, during this latter enlistment being stationed in Hawaii, and was later in charge of the prison guard at Alcatraz, Cal. He was with the Twentieth Infantry on the Mexican border. For the past three months he has been at Little Rock, Ark., training men for officers, and returns there with the rank of captain in the United States Army to drill the new citizen-soldiers.

Americans Take Part in Great Air Raid

Paris, Aug. 20.—The Lafayette squadron, composed of American aviators, played its part in the French air raids reported as the official communication on Saturday, when it was announced that 28,000 pounds of bombs and explosives had been dropped on German military establishments, railroad stations and encampments. Corporal Harold Willis, of Boston, a member of the squadron, has not returned from the raid which resulted in several aerial fights with the Germans.

Two groups of chasers were chosen from the ranks of the Lafayette squadron, commanded respectively by Lieutenant Raoul Lufbery, of Wallingford, Conn., and Adjutant Oddie Mason, of San Francisco, which traveled protectively to the right and left of a bombing machine as entered enemy territory. Another group from another squadron followed in the rear. The groups, however, saw few German machines.

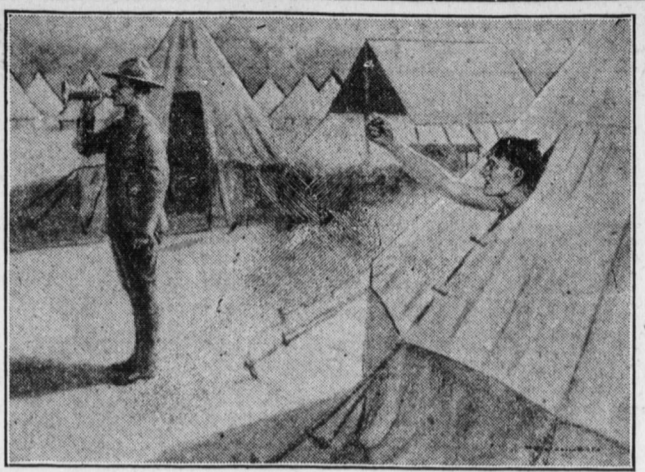

Drinks at Atlantic City Only For Splethrits

Atlantic City, N. J., Aug. 20.—"Higher cost of drinking" was the Saturday night at the vacation rolls of a multitude of free spenders in boardwalk and hotel. Everywhere in both the "straight" and fancy drink line is "away up," from the Royal Palace down to the Chelsea, notwithstanding disarming boasts by distillers that the stock of spirits on hand is ample to last till the war is over if it takes four years.

U. S. to Send 1,200,000 Soldiers to France

Washington, Aug. 20.—The War Department is planning to send more than 800,000 American troops to France. On the basis of two infantrymen to one artilleryman, the ratio preserved in the organization of the new divisions, this will mean at the very least our overseas forces will number 1,200,000 fighting men.

Of the more than 1,800,000 the United States will soon have under arms the remainder will be retained in the United States as depot troops from which the vacancies in the expeditionary forces will be filled.

Pershing is New Name of East Germantown

Richmond, Ind., Aug. 20.—Permission to change the name of East Germantown, Ind., to Pershing has just been received by Frank Gipe, the postmaster, from the Post Office Department.

Residents of that village, ten miles east of here, requested the change on the ground that odium was attached to the name, implying its citizens were Germans. The place was settled more than 100 years ago by Pennsylvania Dutch. Its citizens believe it is the first town to honor the commander of the American forces in France by changing its name.

MOTHER IS MURDERED

Pittsburgh, Aug. 20.—Holding her year-old daughter in her arms, Mrs. Joseph Dodds, of Gascola, was shot dead in her home by Jerome Waters, the police say, the baby being wounded. The tragedy was witnessed by two little sons of the murdered woman, who had been accused by Waters of uttering remarks reflecting on his wife.

DEMOCRATS TO MEET

Democrats of the Twelfth ward will meet to-night in the West End Democratic Club rooms, 1702 North Third street, to outline a war ticket. The session will start at 8 o'clock.

KEEP FLIES OUT SAYS DR. DIXON

Commissioner of Health Declares That This Is the Most Dangerous Season

Flies want to get indoors more than ever now and they should be kept out with even greater care than in the early summer because this is the season of the year when they are most likely to spread disease, is the advice given by Dr. Samuel G. Dixon, the State Commissioner of Health. Dr. Dixon warns that flies carry more disease germs than any insects with which people come into contact and he urges redoubled vigilance against them.

The Commissioner says: "This is the season when flies with their domestic habits begin to seek admission to the homes of man. This will be particularly noticeable as the fall rains come and the nights become cold. During the warm days they have been out in the open, living their customary life on refuse from man and beast, which makes them such dangerous insects in thickly populated communities."

"Now, they want to get indoors more than ever. Hence it is the great danger season, when you must take all precautions we gave you in an early spring talk as to how to protect yourselves against flies. Look over all your screens to see they are in perfect repair and try the various ways of exterminating flies that have gained entrance indoors."

You Can Shake Loose From The Tortures of Rheumatism

By using S. S. S. The germs of Rheumatism are in the blood, which is laden with millions of the minute demons of pain, causing untold suffering and bringing its victim from vigor and strength to almost helplessness. To get real and genuine relief from this disease, these disease germs must be completely routed out of the system through the blood.

S. S. S. has been used for fifty years with satisfactory results in the treatment of Rheumatism. It acts directly upon the blood, which it promptly purifies of all disease germs. It is a powerful antidote, and eliminates from the blood all trace of rheumatic germs, building up and strengthening the run-down system.

Write to-day to our medical director, who will give you valuable advice regarding the proper treatment of your own case. Address Swift Specific Co., Dept. 8214, Atlanta, Ga.
