Why Should Merchandise Delivery be the Costliest Form of Transportation?

Railroads and ships are responsible for the transportation of only fifteen per cent of the world's merchandise and food stuffs.

Animals and motor trucks handle the other eighty-five per cent of the world's delivery—and on the average it costs a hundred times more to transport an article by animal or motor truck than by rail or water.

Why? Because many merchants and storekeepers have never yet placed their delivery on an efficient basis.

Because they haven't yet realized that a horse and wagon or a converted pleasure car can't deliver merchandise to your door as economically as a motor truck built for that purpose only.

They are using make-shifts. Railroads and steamship lines long since discovered that make-shifts don't pay.

The VIM Delivery Car is designed solely for merchandise delivery. Does your storekeeper use VIMS?

23,000 progressive American merchants are paying for their VIM Trucks out of their delivery savings.

Full information about the VIM Deferred Payment Plan on request.

Auto Road Map Free Mailed on Request HOTEL ADELPHIA Chestnut, at 13th St., Philadelphia Pa. 400 Rooms—400 Baths

The new ordinance prohibits any parking of vehicles in Fourth between Market and Walnut streets which was also provided in the old one; and permit parking in Third street between Market and Walnut, for a period of thirty minutes only.

To Put Wires Underground City Electrician Clark E. Diehl today asked Council to provide additional funds to purchase enough cable to continue the underground system for fire and police alarms from Court and Liberty streets to Cowden and Briggs streets, so that all city wires in the Capitol Park extension zone can be removed before the end of the present year.

Let Contracts For Pipes Commissioner Dunkle announced that water tax receipts for the first seven months exceeded those of last year by \$8,307.13. Totals this year, \$128,607.07; last year, \$120,299.94.

Repeat Parking Law Protesting against the ordinance which prohibits parking of automobiles or other vehicles in Third street between Market and Walnut streets, resulted in the repeal of the law by Council. George A. Gorgas, one of the businessmen in the block affected, spoke to Council explaining the disadvantages resulting from the law and asked that it be amended to permit parking on one side of the street for a period of thirty minutes.

ENDORSE JOE VAN CAMP Democratic voters of the Twelfth ward at a meeting last night endorsed Joseph M. Van Camp, veteran policeman and widely-known in the West End, for alderman of the Twelfth ward. Other candidates endorsed include Samuel H. Lane and Dr. C. E. Enrick for city school directors.

SOLDIERS STRETCH LEGS National Guard units from Pittsburgh enroute to Sorthern camp, passed through Harrisburg today. They were given one hour lay off here and the time was spent in a hike over the principal streets. The soldiers attracted much attention. They were advance guards from the Eighteenth Regiment, Battery E, and the First Signal Corps.

GERMANS UNABLE TO STAND FRENCH ATTACK

Bezonvaux, until they must have been repulsed, the infantry advanced as the first streak of dawn lighted the sky and occupied all the positions they had set out to conquer, the same time swayed into their net many prisoners of several divisions of the German crown prince's army.

Terrible Fire The correspondent passed the night on the battlefield in the face of fire and can testify to its intensity. During two famous French victories, one of them being Verdun, December 1916, before Verdun the correspondent was present on both occasions, and this time reached the conclusion from the fierceness of the fire that the French employed at least an equal number of guns.

Face Deadly Gas Verdun has received hundreds of shells which simply added to the destruction in the city. All the ground within eight miles of the front lines was strewn repeatedly with shells containing a horrible new gas known as "mustard gas," affecting the mucous membranes and the lungs, the body which was exposed, causing terrible blisters, as its base was sulphuric acid, and bringing a slow and painful death if it entered the lungs.
