I MMEDIATE establishment of municipal markets in every city of twenty thousand or more inhabitants is urged by Secretary of Agriculture Charles E. Patton as a means of bringing the growers of farm products in direct contact with purchasing and consuming public. In a statement just issued becretary Patton says:

"Any town or city of twenty thousand or more inhabitants can well afford and should take immediate steps for the establishment of municipal or local markets that will bring the farmers of the community in direct out, with the consumer and thus farmers of the community in direct the cost of handling articles for food. In cities where markets have been an established custom for years their success has been proved beyond all doubt, and with the advent of the war garden on small and large scales, some avenue for the overproduction to reach the consumer will arge scales, some avenue for the overproduction to reach the consumer which abound in every community. There is no reason why these gardeners should not be encoraged to attend such markets and have a method of direct sale for the products. This will encourage the farmers to attend this market on a certain day or certain days each week by offering free parking space that the worth of the market to the persons who will bring free parking space the children to greater efforts next year and will show them that careful practice in agricultural pursuits bring results in money cropes. have found lots of them eating their heads off and calculate that as it costs about 20 cents a month to feed a rooster that someone is losing money. The calculators have also decided that to keep every rooster between September and New Year's Day will cost approximately a dollar and the advice has been given to eat or ship the roosters, keeping only fine young healthy birds. Another suggestion being made by the State's poultry experts is that the hens should be taken better care of in the dog days. Too many poultry houses, it is claimed have all the glass fronts in during the hot months and that no change is made in summer or winter.

State officials, who have been ap-State officials, who have been appealed to for some aid to overcome the shortage of teachers in some of the rural districts of the state because of teachers leaving such work to go into more profitable occupations in towns, have run against a new state of affairs due to the entrance of teachers into army officers training camps and the draft. Some of the counties have given up eight or ten teachers, quite a few of whom have applied for admission to training camps, while others have been summoned before draft boards and will go to mobilization camps. State officials are puzzling how to meet the demand for teachers.
