Boston, Aug. 23.—William J. Secretary Baker, announcing the change, said to-day that the War Department could not see its way to spend half a million dollars for such a sewage system as the state health authorities thought necessary in a tional encampment, aroused the greatest enthusiasm by declaring that America had drawn the sword in favor of the oppressed people of Europe, who had appealed for help. The convention hall rang with wartime shouts as veterans rose to their feet, waved battle-torn flags and cheered wildly every reference to the unselfish motive which had prompted the United States to enter the struggle for the freedom of the world and without hope or thought of reward.
