

# HOME-READING COURSE FOR CITIZEN-SOLDIERS

(Issued by the War Department and all rights to reprint reserved)

This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this Course is merely introductory.

## LESSON NO. 11 PLAYING THE GAME

Preceding Lessons: 1. Your Post Honor; 2. Making Good as a Soldier; 3. Nine Qualities of a Soldier; 4. Being Ready for Camp; 5. First Days in Camp; 6. Cleanliness in Camp; 7. Your Health; 8. Marching and Care of Your Equipment and Arms; 9. Recreation in Camp.

There is a gripping interest about a soldier's life that makes a strong appeal to vigorous men. This doubly true in time of war when a soldier has a serious object in view and gives his whole mind to his duties. You will find this interest growing as you advance. New scenes and societies will bring you a new point of view. You will be less wrapped up than you have been in many purely personal questions. You will cut loose from many of the petty details which weigh on another man's mind and you will devote more time to thinking.

The healthy good fellowship of the camp cannot fail to stimulate you. Thousands of men drawn from all walks of life cannot be thrown together without bringing to light many qualities previously unknown. You will probably become better acquainted with yourself than you have ever been before. In order to get the most out of this life you must devote yourself to it heart and soul. A good start is made if the battle in making your way in the Army. Even if you are not very much interested in military affairs—if you are entering the service, it is because of personal inclination, it is solely because it is one of your obligations as a citizen—you are going to become keenly interested after you once get into the swing and spirit of the Army. This will be true in at least ninety-nine cases out of every hundred. Recognize it now and play the game hard from the very start.

### Your Monthly Pay

While the men in the National Army are serving at the call of duty they do not for money, nevertheless every man will be paid more than enough to take care of all necessary expenses. These expenses are very slight. Clothing, food and transportation are provided by the Government. In addition, the private soldier receives \$30 a month while he is in the United States and \$25 per month while he is abroad. Following is a table which shows the pay for some of the higher commissioned ranks:

Rank	Monthly Pay—In U. S. Abroad
Private	\$30.00 \$23.00
Private First Class	33.00 26.00
Private Second Class	36.00 29.00
Private Third Class	38.00 31.00
Private Fourth Class	40.00 33.00
Private Fifth Class	42.00 35.00
Private Sixth Class	44.00 37.00
Private Seventh Class	46.00 39.00
Private Eighth Class	48.00 41.00
Private Ninth Class	50.00 43.00

### 94 She Plants War Garden, Making Record For Women of Country

Oberlin, O., Aug. 24.—Mrs. Thos. Edwards, who is 94, is believed to be the oldest woman not only in Ohio but in the United States who has a growing war garden that has been handed entirely by herself. Mrs. Edwards, early last spring, sent the food garden primer of the National Emergency Food Garden Commission at Washington to follow the suggestions set down in it. Now she is busy studying the primer manual of the Commission. Mrs. Edwards has done all the work in her garden with the assistance of her daughter only. She has but one son, with a large family. Mrs. Edwards came to this country from Wales during the Civil War and she has many relatives of the younger generation now in training or at the front with the British army. Mrs. Edwards has five great-grandchildren and like all Welsh she is famous for her gardenings.

### Peru Indores U. S. in War; May Break With Teutons

Washington, Aug. 24.—Peru's readiness to break relations with Germany is clearly indicated in the Peruvian president's recent message to congress, the text of which was read from the American minister's desk made public to-day by the State Department. The attitude of the United States in entering the war is endorsed, and it was intimated that Peru would be open to American warships. Unofficial dispatches from Amrindam saying Peru had sent Germany an ultimatum as the result of German prize court's refusal of images for the sinking of the Peruvian sailing vessel Lorton created no surprise at the state department. It is believed here a rupture is near.

### Will Double Ammunition on U. S. Merchant Ships

Washington, Aug. 24.—As a result of the official reports on the submarine destruction of the American steamer Campana, which said the gun crew's supply of shells ran out in the midst of the fight, the amount of ammunition supplied to merchant ships will be doubled. The Campana had 180 shells. Naval officers have not accepted conclusive the unofficial report that the failure of the gunners on the Campana to strike the submarine is due to the superior range of the submarine's guns, but believe that it is a case of low visibility, making a small attacking craft a bad target.

## New Styles in Waists for Fall

One feature of the opening of the 1917 fall season is the showing of what might be called suit waists—waists in shades to match the prevailing colors in suits; if not exactly matching the suits the waists may be selected in attractive contrasting tones.

On this account colors in navy, taupe, Copenhagen, brown, flesh, white, etc., promise to have a good run on public favor.

Georgette Crepe waists portraying the new shades are here and they present little ideas that are entirely new—one in point the contrasting stitching that is novel and effective. Tucks, embroidery, lace and beads are used for adornment in a fascinating manner.

## New Millinery for Fall

### Nineteen Seventeen

The styles in millinery for the coming season are decidedly different from those of last fall.

In crowns alone, ideas are exceedingly varied. All sorts of puffs, drapes, shirrings, indentions and ridges are present, affording a striking contrast to the comparatively simple crowns of which we have become accustomed.

Our advance showing is one of remarkable beauty, featuring the small and medium-size velvet hats in the new autumn colorings, and the jaunty new sport hats.

An early inspection of these new styles in head wear is invited.
