

NOISY SERENADES AT STOVERDALE

Stoverdale, Pa., Aug. 24.—Peaceful quiet of the grove was broken by a merry party of serenaders which greeted four happy newly-wedded couples of the grove. U. S. TROOPS HAVE LITTLE RESPECT FOR 'DIGGING IN'

American Losses Expected to Be Large in First Battle

It is purely a matter of temperament and there seems to be little doubt now that only actual battle experience will convince American soldiers that the ability to take advantage of any bit of cover is one of the greatest assets the modern man at arms can have. "It seems a shame to have to curb the first-line fighting spirit of our troops," said an American training officer yesterday, "but the men must be made to understand as far as possible that impetuosity must be subordinated to steadiness. There has become a time-clock war. Men must advance in given time and go no further. Every step of infantry advance must first be worked out with artillery and when the plan is arranged it must be strictly adhered to."

Can't Hold On "We realize that it will be difficult to hold our men to this plan, if they see a battle going on their favorite impulse will be to push on as fast as they can and some are bound to do just as the Canadians did in the earlier stages. We will undoubtedly have big losses in this way, but the men who come through our training will be worth their weight in gold thereafter. They will learn quickly the value of steadiness and will be the steady influence we can distribute through the newer units of our great army as they get their final preparation for trial by fire."

Went to Listen The German belief that they can advance is one of the principles of their defensive tactics. Notwithstanding all that has been told about this, they are not to dig a hole and lie at them through a spy-glass. The French, Canadian and Australian soldiers all resent the idea of digging in and would not admit the necessity of doing so until bitter losses taught them a deadly-bought lesson.

EASIEST TO DIE BY BOLT

Toward, Pa., Aug. 24.—"Say, but that is an easy way to die," said John Soper, aged 19, who was brought back to life after being rendered unconscious by a bolt of lightning while cradling. He was black in the face and to all appearances was dead when found. No pulse could be detected, and his body was stiff. After returning to consciousness he said that all he felt was "a tap on the back." Where he was tapped is a red mark of peculiar design.

How to Beautify a Summer Soiled Face

It's really a simple matter to renovate a face soiled by sun, winds or dirt. Ordinary mercerized wax, used like cold cream, will transform the worst old complexion into one of snowy whiteness and velvety softness. It literally peels off the outer veil of surface skin, but so gently, gradually, that there is no discomfort. The worn-out skin comes off, not in patches, but evenly, in tiny particles, leaving no evidence of the treatment. The younger, healthier under-skin forming the new complexion, is one of capturing loveliness. One ounce of mercerized wax, to be had at any drug store, is enough to remove many layers of reddened, pimped, freckled or blotchy skin. Apply before retiring, washing it off in the morning.

Many skins wrinkle easily with every wind that blows, with heat, worry or cold. Use this wrinkle remover, because it tightens the skin and strengthens relaxed muscles, is a wash lotion made as follows: Powdered sorbitol, 1 oz., dissolved in witch hazel, 1/2 pint. This gives immediate results.—Advertisement.
