

NEITHER FEAR NOR FLINCH SAYS CARDINAL

U. S. Soldiers Told They Go to War As Christians and Americans

By Associated Press
Framingham, Mass., Aug. 31.—Cardinal O'Connell came here today to celebrate early mass at Camp McGinnis, where members of the One Hundred and Fifth infantry are stationed.

At the conclusion of the service the cardinal spoke to the men of their duty to America and civilization in the present conflict.

"The head of Christendom and the leader of democracy, our Holy Father the Pope, and our peace loving President, are both working," he said, "for the same ultimate purpose, permanent peace, and their united endeavors, with God's help, will surely win. And you, with perfect, serene faith in our holy pontiff's prayers and perfect serene confidence in our President's purpose will by your courage, your self control, your discipline, aid powerfully the tremendous spiritual force resulting from the noble approach in intention and sentiment of the two greatest influences in the whole world, the head of the old historic church and the head of American democracy—the two powers which will, God helping both, in the end succeed in routing this spectre of awful war and binding all the peoples of the earth in understanding and amity.

Justice and Fairness

"The basis of all future peace must be justice, and fairness, and the common rights of mankind." These are our President's own words; these I know to be the identical sentiments of the Pope.

"You constitute a goodly part of the great heart of America which yearns for a lasting peace and is willing to offer her best to the peoples of the earth may be rescued from the perpetual menace of war, and all the cruelties of constant conflict."

Reminding the soldiers that duty had called them to a high service—a service demanding perhaps the greatest of all sacrifices—Cardinal O'Connell said:

"As Christians you will not fear, and as Americans you must not flinch."

City League Delegates Depart After Viewing Park System Here

Delegates to the eighteenth annual convention of the League of Third Class Cities closed their three-day stay here with a tour over the city parkway system yesterday afternoon. A number of the visiting officials who had intended to leave earlier in the day, remained after they had heard several speakers praise the Harrisburg public parks. During the trip the delegates were taken to Reservoir Park, where the annual Roman Day exercises were being held. The officials left for their homes late in the afternoon and early this morning.

Because of the interest shown in the address by City Engineer J. B. Cowden on the parkway system, Harrisburg officials have been asked to collect data on the subject so that a law which will make the system uniform in all third class cities.

Struck on Head With Club During Argument

Alexander Mitchell, a Southern negro who has been employed by the Warren-Moore Company in the erection of the big Pennsylvania Railroad warehouse at Second and Mulberry streets, was considerably used up yesterday when a white man named McCloud struck him over the head with a gudgeon.

There had been some trouble between the men when the assistant foreman, Ray Knox, took a hand. He thought all differences had been settled, when the negro approached McCloud, and the latter struck him a blow on the head. The colored man was taken to the Harrisburg Hospital. It was found that his injuries were not serious, and he was dismissed.

Police are looking for McCloud, who disappeared shortly after the affair happened.

Meal Tickets May Be Used For Lodging Charges

Colonel Sweeney of the State Registration Board, has instructed local boards that men who will go to the training camps may use the meal tickets issued by the government for lodging as well. The War Department failed to make proper provision for Pennsylvania draft quotas. Colonel Sweeney is working out a list of hints to draft boards where by the transportation problem may be greatly simplified and will ask boards to suggest other points of mobilization for local districts where railroad connections speeded in the first order are inconvenient. This may result in changes of transportation points for draft quotas to follow the first call.

NUXATED IRON
Increases strength of delicate, nervous, rundown people 100% in 10 days in many instances. If it fails as per full explanation in large bottle, your doctor or druggist about it. Croll Keller, G. A. Gorman, J. Nelson Clark always carry it in stock.

The Harrisburg Academy
The Junior Department reopens September 24th.
The Senior Department reopens September 25th.
The school accommodates pupils under three arrangements: First—As day pupils.
Second—As five-day per week boarding pupils.
Third—As regular boarders.
All pupils are grouped in small classes. Each student receives private instruction and supervision during study periods. For catalogue and detailed information, call at the Academy office or write the Headmaster, Arthur E. Brown, Harrisburg, Pa., Box 61.

Members and Guests of Paxton Company Pay Tribute to Old Engine

The faithful old fire engine, which has answered the call of the firebell for the last fifty years in the Paxton district, was honored last night by a banquet at the Chestnut street auditorium. There were about one hundred guests assembled to do homage to the engine.

George Pratt, who has had the honor of driving the engine in numerous fires, was unable to attend as it fell to his lot to remain at the station. The engine bears the distinguished name of "John Harris" and during its life of unselfish devotion has been "under the weather" only twice.

After the banquet addresses were made by City Commissioner E. Z. Gross, City Treasurer H. F. Oves, State Senator E. E. Beideman, Colonel H. C. Demming and City Controller Dewitt A. Fry. John H. Gates, John Tress, George Leids, J. A. Snyder and Thomas E. Rodgers were in charge of the affair. They all paid tribute to the loyalty of the Paxton Company.

U. S. Naval Forces Convey Safety Merchant Ships Past U-Boat Dangers

Washington, Aug. 31.—American naval forces are conveying merchant craft across the Atlantic. It was disclosed officially yesterday at the Navy Department, and examination of the records show that the loss of convoyed ships by submarines has averaged less than one-half of 1 per cent.

Details of the convoy system are withheld. It was stated, however, that American war vessels are regularly escorting fleets of British, French or other allied merchantmen across the protection being supplemented when the danger zone is reached by the destroyers and other patrol craft.

American naval officials believe an effective system for checking the submarine menace is being built up gradually but certainly. Many devices and methods enter into the task. Among other things, depth bombs are proving effective. Official reports indicate that American destroyers have accounted for several U-boats with these weapons.

No U-boat has been captured by the Americans.

It is the best judgment of high officials, however, that several have been sunk by Admiral Sims' destroyers, and they are more confident than ever that the submarine menace will be substantially abated as the number of destroyers and other craft available is increased.

BAYER WILL RECOVER

Ira E. Bayer, who has been confined to the Harrisburg Hospital since Tuesday, as a result of self-inflicted injuries, is making a slow recovery. Attendants at the hospital say that Bayer will recover, unless complications occur.

CITY BUILDING WORK INCREASES

Permits Issued in August Show Big Gain in Construction Work

Contractors in the city spoke favorably of the big increase in building work during the month as compared with the figures of last year. During August this year thirty-six

CITY BUILDING WORK INCREASES

permits were issued for work to be finished at a cost of \$138,740, as compared with twenty-eight permits last August for \$107,749.

The structures now being erected include a cigar factory, a number of residences in various parts of the city, a substation for the Harrisburg Railways Company, small garages and warehouse and factory. Among the larger permits issued during the month were: Tausig Sons, cigar factory in South Cameron street, \$12,000; twenty-five frame and stucco houses, Paxton street, between Sixteenth and Seventeenth streets, to be built by State Building and Construction Company at a cost of \$50,000; eight two-and-one-half-story brick houses, 1926 to 1940 Chestnut

MATTRESS BURNS

The fire department was called yesterday to extinguish a blazing mattress in a tenement house at Tenth and Berryhill streets, near Paxton. The damage was slight and confined chiefly to the mattress.
