School Days

School time is here again, and you are watching the youngsters begin another journey which is going to be such a big part in their lives.

Everything which may contribute to their material comfort; you have provided, but have you given any consideration to the factor which will be the most important in their future life—their eyes?

They may not need glasses, and again they may. But an examination (without drops) will determine that. So send your children to us for an examination. If they need glasses or not, we will gladly tell you so.

This attention now may save many hours of painful study later, and perhaps enable your child to advance more rapidly in his studies.
