SYNOPSIS

Estella Benton left a penniless orphan, goes to join her brother Charlie, who is logging lumber in British Columbia.

(Continued)

"Be a long time before we get to that stage here," Benton returned. "And scenery in B. C. is a drug on the market. We've got Europe backed off the map for tourist attractions, if they only knew it. No about the only summer home in this locality is the Abbey place at Cottonwood Point. They come up here every summer for two or three months. Otherwise I don't know of any lilies of the field, barring the hotel people, and they, being purely transient, don't count. There's the Abbey-Monahan outfit with two big logging camps, my outfit, Jack Fyfe's, some hand loggers on the east shore and the R. A. T. at the head of the lake. That's the population and Roaring lake is forty-two miles long and eight wide.

WHEAT HERE IS SELLING BELOW FIXED PRICE

"Soft" Grain Raised in Pennsylvania Not Yet Considered by Government

Farmers and wheat-growers of this section of the country do not know at this time what price will be paid for Pennsylvania wheat, despite the fact that the government has entered the wheat market and has taken possession of the wheat in elevators and terminals in certain sections, buying at the basic price of \$2.20 a bushel. Local concerns explain that the price of \$2.20 per bushel applies only to northern or hard wheat. This grade is not sold in this section.

ROUSING SENDOFF FOR MEN GOING TO CAMP HANCOCK

City Unites in Honoring Quartermaster Corps; Civilians and Military in Line

This city gave a splendid demonstration in honor of the twenty-six members of the quartermaster's corps Pennsylvania administrative staff, when they left for Camp Hancock, Georgia, last evening. Thousands of Harrisburgers, together with visitors from the surrounding towns, made the parade a complete success. The young men who left for the southern training camp were accompanied by their families and friends who lined the sidewalks along the line of march.

Private Responds

At the conclusion of Captain Laubenstein's address, Private Jay P. Leppole, of Philadelphia, a member of the departing contingent, made a fitting response. The young soldier caught the fancy of the crowd when he said that no tears should be shed for the boys who were leaving. He declared that it was honor enough to fight for the Stars and Stripes. Private Leppole paid a high tribute to the Red Cross when he declared that the boys who go to war to-day are better equipped than any other army in the world's history, largely through the efforts of the Red Cross.

Merchants Ice Company Declares Dividend

At the regular monthly meeting of the directors of the Merchants Ice Company, last night at the Metropolitan Hotel, a dividend of 5 per cent, was declared on all outstanding 7 per cent. stock to September 1.

SCHOOL PRINCIPAL IN CHARGE

Gettysburg, Pa., Sept. 5.—Abbotttown has finally succeeded in getting a principal for their schools. Last year's principal resigned to accept a better position and a new man was elected, but he was caught in the draft, leaving them without a head for their schools just when ready to open for the year's work.

All Traces of Scrofula Eradicated From the System

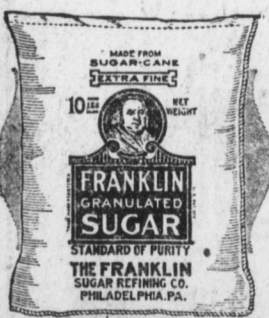

By the greatest of all purifiers, with highly satisfactory results for Scrofula. Being made of the roots and herbs of the forest, it is guaranteed purely vegetable, and absolutely free from all mineral ingredients. You can obtain S. S. S. from any druggist. Our chief medical adviser is an expert on all blood disorders, and will cheerfully give you full advice as to the treatment of your own case. Address: Swift Specific Co., Dept. P214, Atlanta, Ga.

Like the Squirrel and the Honey Bee store up some food for Winter

SAVE THE FRUIT CROP

A Franklin Sugar for every use Granulated, Dainty Lumps, Powdered, Confectioners, Brown

Sold in 1, 2 and 5 lb. cartons and in 2, 5, 10, 25 and 50 lb. cotton bags.

She laughed with him at this, and, leaving the shady maple, they walked up to the hotel, where Benton proposed that they get the canoe and paddle to where Roaring river flowed out of the lake half a mile westward to kill the time that must elapse before the 3.30 train. "The St. Allwood" car was rolling out to Heyward when they came back. By the time Benton had turned the canoe over to the bathhouse man and reached the wharf the horn of the returning machine sounded down the road. They waited, the car came to a stop at the abutting wharf. The driver handed two suit cases off the burdened hood of his machine. From out the forenoon clambered a large, smooth-faced young man. He wore an expansive smile in addition to a blue serge suit, white Panama and polished tan oxfords, and he bestowed a hearty greeting upon Charlie Benton. But his smile suffered eclipse and a faint flush rose in his rosy cheeks when his eyes fell upon Stella's sister.

Presently they were embarked and under way. Charlie fixed a seat for her on the afterdeck and went forward to steeple, whither he was straightway joined by Paul Abbey. Miss Benton was as well pleased to be alone. She was not sure she should approve of young men who made such crude efforts to scrape acquaintance with women on trains. After about an hour's run, with the south wind beginning to whip the crests of the short seas into white foam, the boat bore in to a landing behind a low point. Here Abbey disembarked at the landing, and Stella came aft and shake hands with polite farewell. Standing on the float, hat in hand, he bowed his sleek blond head to Stella. "I hope you'll like Roaring lake, Miss Benton," he said as Benton jinked the go ahead bell. "I tried to persuade Charlie to stop over awhile, so you could meet my mother and sister, but he's in too big of a hurry. Hope to have the pleasure of meeting you again soon."

Central High School Notes

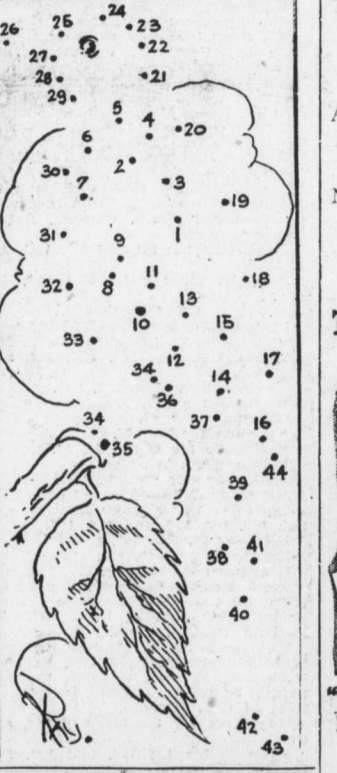

About 450 freshmen reported yesterday at 8 p. m. at Central High school. They were divided into eighteen sections and assigned to their various classes. Classes were resumed this morning. Slight changes have been made in the general program for the coming year. The first session will open at 8:15 a. m., and continue until 12:30 p. m., and the second session from 1:45 p. m. until 5 p. m. Sessions will be reversed after the first six weeks. Chapel exercises will be held Tuesday and Friday of each week for the present. The following seniors are to be strictly enforced this year. It will be considered a serious offense if students do not enter and leave the building at the proper doors and use only one side of the halls and stairways between classes. A ten-minute intermission will be given in the middle of the session at which time traffic regulations are not enforced. The fire alarm test will be given at the beginning of each session and students are requested not to move at one tap of the bell. Principal Dibble appoints the following seniors to serve as fire patrol: Benjamin Wolfe, Noble Frank, Kenneth Eldridge and William Rodgers. Members of the faculty will give directions in the halls during fire drills.

Safe Milk for Infants and Invalids HORLICK'S THE ORIGINAL MALTED MILK Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. DAILY DOT PUZZLE

Mother Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All The Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You Are and Now She Looks Just Fine.

NUXATED IRON WILL INCREASE THE STRENGTH AND ENDURANCE OF WEAK, NERVOUS, CAREWORN, HAGGARD LOOKING WOMEN 100 PER CENT. IN TWO WEEKS' TIME IN MANY INSTANCES.

THE CHILD'S APPEAL

There can be no Beautiful, Healthy Rosy Cheeked women without Iron. F. KING, M. D.

ing organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver heart trouble and other dangerous maladies. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by a lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much, or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. The next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then, when you feel better, strength again and see how much you have gained. I have seen dozens of nervous, rundown people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form and this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or iron sulphate, for they contain a few cents. The iron demanded by Mother Nature for the red coloring of the blood is iron in its natural form, and not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless.

You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeked women full of Life, Vim and Vitality

Dr. Ferdinand King, New York Physician and Medical Author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anaemia—iron deficiency—is the greatest cause to the health, strength, vitality and beauty of the modern American Woman.—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.
