Range Conquered by Electricity

The mighty Rockies, the Belts and the Bitter Roots have bowed their lofty heads before the onward progress of man. The limitless energy of their tumbling cataracts has been harnessed to furnish power for the giant electric locomotives which haul the heavy steel trains of the "St. Paul Road" across their rugged slopes.

And now another great mountain range—the snow-capped Cascades in Washington has felt the hand of the conqueror. The work of electrifying the 211 miles of line through this range is well under way.

Mountain travel is given a new charm—no smudge of smoke paints its black line across snow-clad vistas—travel is clean, smooth, silent.

When next you journey to Butte, Spokane, Seattle, Tacoma, Portland and other Pacific Northwest Cities travel the electric way—via the

Just what the girl had said to the man to nonpluss him so was the problem. Quite a number of answers were received.
"Why did you wait to be drafted?" Miss Mumma decided the girl had said; and judging from the look on the man's face, the Telegraph agreed with her.

Catarrhal Deafness May Be Overcome

If you have Catarrhal Deafness or lead noises go to your druggist and

get I ounce of Parmint (double strength), and add to it ½ pint of hot water and 4 ounces of granulated sugar. Take I tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.
