

WINDOWS ARE DECORATED IN CHARMING TASTE

The window decorations for Harrisburg's fall opening amply repaid those who made a special trip to the shopping district of the city last evening. Living Models Even the little kiddies were not forgotten in the opening. Beautiful frocks and party dresses were shown for the little ones.

Distinction in apparel is not alone a matter of selection; first there must be a reason for adopting some particular style of designing and next comes the need for a proper interpretation of that design.

In suits for misses and women are to be found beautifully designed frocks and dresses of broadcloth, rayon, velours, jersey cloths, Rayonette and duet de laine in burgundy, taupe, brown, navy, green, and other colors.

One may gain the impression that it is a season of all things new, but in fact it is a season of new combinations and new colorings.
