WHY WOMEN DREAD OLD AGE

Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as hale and hearty in your old days as you were when a kid, and every one will be glad to see you. The kidneys and bladder are the cause of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL, Haarlem Oil Capsules periodically and you will find that the system will always be in happy working order. Your spirits will be enlivened, your muscles made strong and your face will once more the look of youth and health.

CUMBERLAND VALLEY GOOD PROSPECTS FOR DEER SEASON

Handsomeness of Animals Raiding Fields of Farmers Near State Game Preserves

Waynesboro, Pa., Sept. 28.—Pennsylvania will have good deer hunting this fall, according to reports from districts near the game reserves and mountain counties where there are Hick woods. In some sections deer have already been reported as raiding fields and state game officials have been investigating claims of damage.

The number of deer in the state game preserves, which are closed at all seasons, is said to be greater than last year.

Under operation of the new game code, the deer season will follow the bird season, being planned for a period of the year when the leaves are on the trees. Deer may be shot December 1 to 15, while the quail and pheasant season will run from October 20 to November 30.

SCHOOL DEFECTS WITH REMEDIES POINTED OUT

respects to the accepted standards of modern schoolhouse construction. Elimination of politics in the selection of janitors and other employees of the board; all janitors to be instructed in care and operation of buildings in such manner as to relieve principals and teachers from some duties now devolving upon them.

Substitution of cheaper grades of coal for some of the larger and more expensive varieties now in use. Employment of expert accountants as school auditors and of marking funds to be placed at interest in school and local city or local industrial bonds in order to earn a larger percentage of interest.

The surveyors also made the point that school treasurers could get away with taxes paid them without anybody busing the wiser. School Treasurer Oves to-day denied this. He said the system of accounting might need revision, but that careful accounting is possible for the treasurer not to be found out if dishonest. He also pointed out that school funds in his charge are at interest at rates as high as the banks will pay.

The introduction and summary accompanying the report are as follows: This report deals with the organization and the procedure followed in administering the physical plant and business functions, and in providing for the general regulation and control over all of the activities of the school district of Harrisburg. While no inquiry was made into the work of the different educational services, i. e., instruction, medical inspection, enforcement of attendance, etc., yet the general organization for the administering of these services and the relation thereof to the business and physical administration of the schools has at all times been taken into account. Both the criticisms and recommendations of this report are made in the light of what is deemed necessary in order to produce a well balanced and regulated school system for Harrisburg.

Due to the limit of the survey method of the different educational services, i. e., instruction, medical inspection, enforcement of attendance, etc., yet the general organization for the administering of these services and the relation thereof to the business and physical administration of the schools has at all times been taken into account. Both the criticisms and recommendations of this report are made in the light of what is deemed necessary in order to produce a well balanced and regulated school system for Harrisburg.
