

### BIG STATE BOARD FOR EQUAL WAGE

#### Takes Action at Meeting During Which Women's Employment Is Discussed

The Industrial Board went on record last evening as favoring wages for women in industrial war service to be equal to that paid to men for the same service. That action was taken on resolution offered by Mrs. Samuel Semple, of Titusville, Pennsylvania, the only woman member of the board. Other members of the board present were Dr. A. L. Garver, of Reading Spring, representing employers; William Young, of Philadelphia, representing labor, and Commissioner John Price Jackson, chairman of the board.

The board also made rulings permitting women to work in certain processes in plants manufacturing explosives and chemicals only when most approved methods of dust elimination exist, that women be prevented from heavy lifting and that other specified means for safeguarding their health be adopted.

The resolution offered by Mrs. Semple and approved by the board is as follows:

"The board strongly recommends to persons and organizations employing women into their employment in the place of men that they look upon it as patriotic service, that the wage paid to the women should be equal to that paid to the men for the same service. The board calls to the attention of the employers the fact that it is the service of the women that will enable them to maintain their industries; and also the fact that many of these women, because of the military service required of the men of their families, are now compelled to assume self-support, and also—in many instances—the support of dependents. The board urges its belief that patriotic devotion of employees and of employers should go hand in hand."

Regarding the employment of women in Pennsylvania plants manufacturing explosives and chemicals the industrial board rules as follows:

(1) Inasmuch as it is an established fact that women are more susceptible than men to certain industrial poisons met with in the manufacture of explosives and chemicals, the employment of women in these industries shall be permitted only where the most approved methods are used for the elimination of fumes and dust. The employment of women shall also be conditional upon the employment of a woman as a plant nurse, whose duty it shall be to instruct the women in safeguards to health.

(2) The work in such plants shall be so rearranged that men shall at all times perform that part of the work which involves the lifting of heavy weights; and women shall not be required, or allowed to lift heavy weights.

(3) The employment of women is prohibited in handling of the nitro in the manufacture of nitroglycerine.

(4) Conditions of heating, lighting and ventilation shall be maintained at the highest point of efficiency. Means shall be provided whereby puddles of water on the floor shall be eliminated or the floors slatted to prevent wet feet.

(5) Rest, wash, dressing and lunch rooms shall be provided in full accordance with the provisions of the woman's law. The physical upkeep of the establishments shall be in full accord with the safety standards of the Department of Labor and Industry.

#### WYOMING ADDS TO ITS BANKS

Cheyenne, Fourteen banks, with a capitalization aggregating \$325,000, have been chartered in Wyoming in the eight months since January 1, 1917. The largest is the First State Bank of Cheyenne, which is capitalized for \$100,000. Several private banks have also been organized. The number of banks now chartered and the capital represented is nearly 50 per cent. in excess of the figures for the same period in 1916.

## One of The Smartest Overcoat Styles Ever Designed For Young Men Is The Khaki Color Trench Coat

These new coats have all the features of the novel Trench style with the added military touch of khaki—for they are fashioned of fine knit jersey cloth in a rich khaki shade.

A young man will take to this Coat like a duck takes to water—and the snappy, soldierly cut will appeal to older men too. This is a new lot just in from a maker, who puts hand-tailoring in his clothing. By all means see them to-morrow.

Sizes 35 to 42.

\$20.00 and \$22.50

An Interesting Subject Just Now to Many Men—Fall Clothes.

The Trench Model is shown in suits, too; in fact, it is a style that has become tremendously popular—and the best examples of this smart style are naturally to be expected from such reputable makers as—

August Bros.---Hirsh-Wickwire---Hickey-Freeman---"Sampeck"
