

CARRY YOUR BUNDLES HOME

Red Cross Enters Campaign to Effect Big Saving

The Red Cross Society has started a campaign in which it is anxious to have every person in Harrisburg participate. It is an appeal to the people to carry home their bundles. If the Red Cross can reduce the cost of delivery to the merchants in the city, the merchants in Harrisburg can cut down on their prices a great deal. In this way the stores and the Red Cross can co-operate in reducing the high cost of living.

By carrying your own parcels, you will lighten the burden of the Nation

To Visit Merchants Monday morning four messengers and four of the committee will visit all of the retail merchants in the First ward. The next visit will be made to the merchants in the heart of the city, the Third, goes to the Hill, and the fourth visit will be made to the retail stores uptown. Those on the committee are: Miss Susanne Westbrook, Mrs. V. Lorne Hummel, Mrs. William Laubenstein, Mrs. Lee R. Laubenstein, Miss Dora W. Coe, Miss Mildred A. Strick, Miss Helen Gurnett, Miss Martha Fletcher and Miss Helen Scott.

YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TONIGHT

Don't stay headachy, sick, or have bad breath and sour stomach.

Wake up feeling fine! Best laxative for men, women and children.

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath offensive and your stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced.

The Road to Health Are You Treading It?

If you have a good appetite, enjoy your meals and have good digestion, if you sleep well and are able to work with vigor and vim, you enjoy life and those about you like to be near you, because you radiate happiness.

Sanpan is the great restorer, Sanpan is not a cure all, and if you are suffering from cancer, consumption or chronic Bright's disease, Sanpan is not for you. There are many advertised medicines for whom extravagant claims are made, and when put to the test, they fail to make good.

A GOOD PLAN Entrust your gold and silver plating and repoling to us and be certain that it will be done right, prices included.

Three Named by Wilson to Interstate Commerce Board

Washington, Sept. 28.—The following were nominated to-day by President Wilson to the three vacancies on the Interstate Commerce Commission:

- Robert W. Woolley, of Virginia, Democrat, for the term ending December 31, 1920. Clyde E. Atchison, of Oregon, Republican, for the term ending December 31, 1921. George W. Anderson, of Boston, Mass., Democrat, for the term ending in 1922. Charles R. Page, of California, Republican, was named to the Federal Shipping Board.

TRUCK HITS CAR The Allison Hook and Ladder truck to-day hit a street car at Derry and Kittatinny streets. The fender on the car was bent.

The Best Time To Build THIS Fall—to-day—is the best time to build. Lumber prices have not advanced greatly. Merchants are to be had now.

In the near future lumber prices will advance sharply owing to the fact that lumber will soon be used in many cases for steel and iron.

The Government needs all steel and iron products for shells, shrapnel, bullets, steel plates, etc. This fact will itself amount to quite an item. Don't delude yourself in the belief that lumber may be cheaper next year.

THE TRUTH ABOUT GERMANY

By MARIE BONINI BROWN

Starvation Diet Makes Food the All-Important Topic in Berlin — Substitutes For Everything — Government Kitchens

"I got a can of fruit this week and we had it for my birthday dinner," a third would tell to the envy of the rest. Americans may think this is exaggerated, but until you have been on a slow starvation diet for months, you cannot realize what intense interest the subject of food has for you. Even since I have come home it seems to me that food is the prominent object of importance. During the last two years I lived in Berlin there was but one topic of interest among friends who met. It was not the war, nor its duration, nor who would get it next, nor even who had been killed. It was "eats."

IF SHOW IS BAD MAKE ARRESTS IS ADVICE OF COURT

Law Violators Should Not Be Warned, Judge Kunkel Tells Grand Jury

Addressing the grand jury this morning, Judge Kunkel said that it should have investigated the quality of the burlesque shows of the city, and if they were as bad as charged, prosecutions should have been brought. The judge said that in his opinion the way to stop immoral exhibitions was to bring charges against the violators rather than warning them of their delinquencies, enabling them to go to the very limit of the law without actually stepping over.

The court's remarks were made in commending the jury for its denunciation of all exhibitions "which paraded last night for the sake of the moral sense, honor and fiber of the community."

The judge said that no law-breaker has any right to be warned and that proprietors of shows that go beyond the law ought to be prosecuted without notification. Retain of Petty Cases Judge Kunkel coincided with the grand jurors, who, in the quarterly report, criticized aldermen and justices for returning petty law cases to court, but the judge simultaneously cautioned the jurors that care must be exercised in making such criticism because the magistrates not always are at fault.

Sometimes, the court suggested, the aldermen have no alternative other than returning a criminal case to court because the parties involved refuse to agree to a settlement. Moreover, Judge Kunkel said that disposition of a criminal case by the court invariably has its influence on the extent of preventing crimes that are even more serious than the so-called petty cases.

Judge Kunkel then cited an example, saying in substance that a jury may inadvertently laugh because one man causes the arrest of another by pulling his trousers. But the man whose case receives such treatment and consideration may feel inclined the next time he is attacked or wronged to take the law into his own hands because the jury laughed at him in the first case and by so doing commit an even greater crime.

Employment of prisoners serving terms in jail is advocated in the report of the grand jury filed in court this morning and the suggestion received the approval of the court. Nevertheless, Judge Kunkel mentioned the fact that it is a lamentable fact that the Legislature didn't see fit to provide broader powers. But the man whose case receives such treatment and consideration may feel inclined the next time he is attacked or wronged to take the law into his own hands because the jury laughed at him in the first case and by so doing commit an even greater crime.

I. W. W. Leaders Unable to Furnish Heavy Bond Chicago, Sept. 28.—The I. W. W. leaders of the Industrial Workers of the World who were arrested in Chicago last night on indictments on charges of sedition have returned by Federal grand jury against 166 members of the organization throughout the United States were still in jail.

LIBERTY BONDS SOAR New York, Sept. 28.—The price of liberty bonds continued to rise upward to-day. At the outset of the trading on the stock market a lot of bonds sold at 100.30, a new high record, six points above yesterday's high.

have seen the stew and I believe I sometimes would have been a better cook than that. But, probably, if I had had nothing, I could have come to that. There was a nauseous mixture, but there were no "leavings" when those poor people got through with their bowls. And these were not the beggars—these were the poor who, in ordinary times, were contented moderately well-to-do.

One thing the war did bring forward—that was the equality of women as regards paying their way. When a young man took you into a restaurant and you did not permit him to pay for your meal you paid it yourself. You never knew just how near to his last pennny your best was.

In Germany, though, this method prevailed somewhat even in peace times. Unless a man is a relative, a fiance or your husband, it is best not to let him pay for your meal. The waiter may think you a "coquette," a "light woman," if you do, and you need not be surprised if he (the waiter) will make some familiar remark to you.

But, during war times this "Dutch treat" business extended to everybody. Some of the American women in Berlin had more money than the men who were not German, for they would send home for money, while the men would not. Tomorrow Marie Brown will write about "How the German 'Common People' Live." (To be Continued)

MAYOR TO INSIST ON CLEAN SHOWS

Comes any effort to improve the character of the exhibitions given in his theater. Mr. Hopkins is authority for the statement that he will obtain the very best talent available, and that women as well as men are welcome to all performances at the Orpheum.

Mayor Bowman's letter to the Ministerial Association follows: Reverend Sirs—I acknowledge receipt of your recent communication, in which was embodied a minute passed by your association under date of September 24 with respect to certain amusement exhibitions of an alleged immoral character being given in this city. As Mayor of Harrisburg, I appreciate the interest manifested by you in the city's affairs, and wish to say that, although my term of office is very short, I propose to do all within my power to see that there are no violations of the law taking place without proper action being taken.

With that desire in mind, and in order to obtain a full and impartial report requested a number of citizens, actively interested in the affairs of Harrisburg, to attend two performances of an amateur theatrical troupe at the Orpheum Theater Thursday afternoon and evening of this week. That committee met the following Friday morning and after a full discussion of the performances from every angle, they submitted the following:

"We visited the burlesque show given by the 'Follies of Pleasure Company,' entitled 'Up and Down Broadway,' at the Orpheum Theater on Thursday, September 27, 1917, and found nothing in the exhibition of an indecent or immoral character."

For your information, and the public generally, attention is called to the act of Assembly of June 27, 1913, under which third class cities operate, and in which are defined the corporate powers thereof, and from which is quoted the following: "25. To license, and collect a license tax, from skating rinks, open-air theaters, concerts, shows, circuses, menageries, and all kind of public exhibitions for pay (except those for religious, educational or charitable purposes) of the same, and to restrain all exhibitions of an indecent or immoral character."

In view of the report of that committee, I am of the opinion that in the performances referred to there has been no violation of law calling for official action. Hence, in future performances of a like character prove to be of an immoral or indecent character, and in violation of the law, I stand ready to take such action as may be necessary to free the community from performances that are destructive to public morals.

J. W. BOWMAN, Mayor of Harrisburg.

Opportunities For Men Who Expect to Get Across to Learn French

The Y. M. C. A. has arranged to have classes in French taught at the building for members of the Signal Corps and men who expect to be called in the selective draft, also men who anticipate going to France in any capacity. There will be two classes, one of which will be taught in the afternoon and the other in the evening. The afternoon classes will be taught on Mondays, Wednesdays and Fridays at 5 o'clock. The teacher for this class is a native Frenchman and who served in the French Army during the first and he has been unable to furnish his name. At present he is stationed at the Steelton plant of the Bethlehem steel works.

The evening classes will be taught Monday and Tuesday evenings at 8 o'clock, in the assembly room of the Y. M. C. A., by Professor William D. Meikle, who is the teacher of French at Central purposes. Both of the teachers are giving their services and time free of charge. There will be a like survey conducted for those who wish to take up the course, but regular attendance is insisted upon.

SCHOOL SURVEY IS APPROVED

money, and for inefficient and improper teaching facilities. The School Board spends approximately \$600,000 a year, employs more than 400 people, operates 30 or more large buildings, and yet it has never had and has not now any official charged with the responsibility of managing this large business. Of course we don't get the results we should. I have not seen the report for sometime, but as I recall there are two respects in which its recommendations could be made effective easily and promptly to the great gain of the district. That is to say, the present committee system, with all of its absurdities, could easily be abolished, and also a business manager or superintendent could be employed to take charge of the business administration of the Board's functions. These two reforms are basic—others would naturally follow from them. Such a business manager or superintendent, as in the case of any corporation having an annual turnover of \$600,000 and with 400 people on its payroll, should be a man of fine technical and business training, a man of business experience and one who has made good in some other job. Some months ago Mr. Enders, of the Board, introduced a resolution providing for the employment of a business manager or superintendent; but while the matter was under consideration, the proposition of the 'Chamber of Commerce' to make a survey came along, and the matter was allowed to rest until the Survey should be made, with the thought, I think, that with expert advice (that word 'expert' hurts the feeling of some of my friends, but nevertheless I advise it) and fearlessly use it) the matter could be proceeded with more intelligently, effectively and economically. The report in its entirety is well worth the careful reading of any citizen interested in the welfare of our schools. I think the Chamber of Commerce is to be congratulated upon its wisdom and generosity in having this survey made, and I hope that before long it may be possible to have a like survey made of the teaching branch of the Board's activities."

FINAL PLANS FOR LOAN DRIVE MADE

Liberty bonds yesterday moved to a higher premium. And this increasing premium on the Liberty 3 1/2's augurs well for the second war loan of \$2,000,000,000 and upward, according to the total of subscriptions which will be placed between Monday and October 27. The second Liberty Loan will be more valuable than the first to people of small incomes; because the bonds bear 4 per cent.

It looks as though the coming issue will in large measure be up to country bankers—which includes all Pennsylvania banks, really, outside Philadelphia and Pittsburgh. At the bankers' convention in Atlantic City, Secretary McAdoo emphasized the great value to be received by the farmers for this year's crops, the total being \$17,000,000,000, or rather more than the entire amount to be raised by the government for its own needs and those of its allies up to June 30, 1918. Crops are worth \$2,000,000,000 more than they were last year; and these \$2,000,000,000 form the basis of Liberty Loan investment possibilities among the farmers, under the auspices of the country banks.

Drive in Every Phase of Life Subcommittees to be named by the general Harrisburg and Dauphin county general committee will carry the Liberty campaign into the churches, fraternal societies, schools, business organizations, the mills, the shops, theatricals, and every phase of life. The Boy Scouts will help. The Red Cross will give its services. Lodges will name special committees, to aid the general committee.

Cornick, A. S. Patterson, E. L. McColegin, George W. Rely, E. J. Stackpole, E. R. Miller, Victor F. Lecout, R. H. H. James and William Jennings, chairman for Dauphin county.

25 DICTIONARIES IN ONE All Dictionaries published previously to this year are out of date

Present or mail to this paper one like the above with ninety-eight cents to cover cost of handling, packing, clerk hire, etc.

Suppose there were but two newspapers published in Harrisburg — one a penny paper, the other a two cent paper. And suppose that 75 per cent. of the homes in the community held the two cent paper in such high regard as to be willing to pay more to get it. Regardless of the quantity of the circulation of the penny paper, which would be your first choice as a medium in which to print your store message? Well, if the two cent paper under such circumstances is the better buy, would it not possess even greater merit if it held such a high percentage of homes as its number of competitors increased? The Harrisburg Telegraph is a welcome visitor in 75 per cent. of the homes in its field every evening at a higher cost than other papers. It is in its 87th year—and that is important, for it indicates substantiality. Its readers are constant—it has been handed down in families through generations—it is more than a mere newspaper in the majority of homes—it has grown to be an essential part of the daily home life.
