

TEACHERS ARE SCARCE, COUNTY REPORT SAYS

F. E. Shambaugh Plans Community Surveys; Extension Courses Are Planned

The annual report of F. E. Shambaugh, county superintendent of schools, has been submitted to Dr. Nathan C. Schaeffer, State Superintendent of Public Instruction.

One of the chief problems during the last year's official reports, has been the difficulty in obtaining properly trained teachers, largely due to the need of higher salaries, and inability of teachers in rural districts to find a place to reside.

In the 128 rural schools last year there were eighty-seven new teachers, while ninety-two do not have the same teachers this year.

Attention was called in the report to the improvements made at the buildings in Easton, Hanover, and Wiconisco townships, Lykens and Williamsport.

An extension course in rural sociology and economics is planned this year for the rural teachers, Superintendent Shambaugh states, and in connection with this teachers will take community surveys.

It is planned also to obtain a motion picture machine to be used at the community meetings which will be held during the year.

WANTS EVERY AID IN FIRE PREVENTION

Chief Kindler Urges General Observance of Governor's Proclamation

Fire Chief John C. Kindler to-day issued a statement urging every resident in the city to join in the movement to have a general clean-up of all rubbish, trash and waste next Tuesday, designated by Governor Brumbaugh as "Fire Prevention Day."

"It is important that every citizen aid in this work," Chief Kindler said. "Harrisburg can do much to cooperate in a movement of this kind and it will certainly do the city much good."

Let every housekeeper gather together all rubbish, waste, paper, old boxes, clean out corners in the cellars and garrets and get rid of the accumulation of inflammable waste which adds so much to fire hazards.

"In cellars where wood is stored for fuel it should be kept away from furnaces. Leaks in gaspipes should be repaired, and in all big stores, gas pipes, telegraph and trolley systems and other public utilities and the use of union labor in all governmental activities are among the demands made in the Spargo draft.

A tentative draft of the platform which is to be submitted to the conferees, said to have been written for the most part by John Spargo, formerly a Socialist, approves universal suffrage, the initiative and referendum, the recall, the short ballot, the executive budget and proportional representation. National prohibition is demanded and the declaration made that all traffic in liquor must be outlawed.
