Mr. Veiller has written a review of the play which is being presented at the Orpheum. As was the case in "Within the Law," Mr. Veiller in his newest play is said to have shown a master hand at dramatic construction and a wizard at devising scenes which the audience is held as by a hair until the moment arrives in which he is willing to give up the curtain and reveal the solution to his own cleverly constructed plot.

SEARCH GUNMEN IN COURTROOM FOR FIREARMS

Vare Denies He Furnished Money to Hife Election Thugs. Philadelphia, Oct. 3.—The hearing of Mayor Thomas B. Smith and eight others, charged with conspiracy to murder and other crimes in connection with the killing of a politician and blacklisting of citizens here on primary election day, September 19, was resumed before Judge Brown in Municipal court to-day.

When the hearing opened Judge Brown directed court officers to search all the defendants with the exception of Mayor Smith and William E. Rupp for firearms. None was found. The court explained that one of the men was yesterday reported to have a weapon in his pocket. All denied it.

James I. Clark, investigator for the O'Farrell detective agency, who testified yesterday that he steered the New York gangsters around the Fifth ward, again took the stand and gave further details of what he saw of the operations of the alleged gunmen and policemen on primary day, September 19, and the night before and what part he took in them.

Clark said when he learned that the New York men had blackjacks, he told Isaac Deutsch he was going to report it to his chief (Maloney), who, he said, reminded Deutsch that it was understood no one was to be hurt. Deutsch, Clark said, replied: "Do you think these fellows can fight pickaxe men with their mouths?"

Testimony presented at the hearing yesterday in which State Senator Edwin H. Vare was named as the man who was to furnish the money to bring the gunmen from New York and his brother, Congressman S. S. Vare, as having given assurance that the money would be forthcoming from Isaac Deutsch, the Vare leader in the Fifth ward, came to a climax to-day. Sensations caused by the investigation into the political feud, Senator Vare in a statement branded all the front treaters that he related to the Vare as an "absolute lie" and part of a "general frameup" to discredit them.

A large number of witnesses are yet to be called and attorneys for the prosecution say future revelations will be even more sensational than those already made.

HUNDREDS ARE VISITING FOOD SAVING TRAIN

Women of City Show Much Interest in Demonstrations and Exhibitions

The food conservation train which is touring the State of Pennsylvania under the auspices of the Department of Food Supply, Pennsylvania State College, United States Food Administration and the Pennsylvania Railroad, arrived in Harrisburg early this morning and at 10 o'clock was opened to the citizens of this city for inspection. By noon to-day no less than 200 had visited the train. Late this afternoon the attendance increased at a rapid rate and it is estimated that nearly 1,000 visitors passed through the three cars as they stood on the siding opposite the Reading Railway station in Market street.

There are three distinct departments of the train, each in a different car. The first car is devoted to the demonstration and exhibition of materials that may be used, method of preparation and actual baking of wholesome and palatable forms of bread, that may be employed in substitution for wheat bread as a means of conserving wheat.

The second car is in charge of an instructor of home economics from the State College, who demonstrates the approved methods of canning for home use the surplus fruits and vegetables.

The third car is devoted to graphic description and illustration of the relation that food supply bears to the war situation.

In each car an instructor from the State College gives demonstrations throughout the entire day. The young women in charge with the train in Harrisburg are Miss Margaret Hiller, Mrs. Mary McLean and Martha S. Fittman. The majority of the visitors are expected to be women, but the male population of Harrisburg was well represented. Bakers were present in large numbers in the first car, and were given information and advice concerning the conservation of bread.

The local committee is Mrs. John W. Reilly, Wednesday morning—Mrs. W. M. Henderson, Mrs. Charles Hunter, Mrs. J. W. Reilly, Wednesday afternoon—Mrs. F. R. Oyster, Mrs. Lewis H. Lyon, Mrs. E. H. Gettshall; Thursday morning—Mrs. W. Frank Witman, Mrs. C. A. Smucker, Mrs. J. S. McDonald; Thursday afternoon—Miss Susanna Westbrook, Mrs. Shunk and Mrs. Matamoros.

CITY AWAKENS TO MERITS OF LIBRARY FUND

Contributions Are Coming in More Rapidly, Although Much More Is Needed. Just at the end of the campaign for a million-dollar War Library fund, the city seems to be waking up to its privilege of contributing to the \$6,000 asked as its share of the total. Besides the amounts already credited, checks up to date have been received from the Harrisburg Rotary Club, \$145, with more to come; \$125 from Harrisburg Chapter, Daughters of the American Revolution; Mrs. Lyman D. Gilbert, \$100; David E. Track, \$50, and Spencer C. Gilbert, \$50.

One of the schools, which has given \$60, expects to make it \$100 by the end of the week, and although but \$2,000 has been given, it is expected that when other civic associations make their final reports that at least \$3,000 will have been donated.

Members of the West End Republican Club attended a coronast at the North Third street headquarters last evening.

RAILWAY RATE CASE REOPENED

New Tariffs Proposed Effect Increases to Sixty Per Cent.

Washington, Oct. 3.—By an order of the Interstate Commerce Commission to-day the celebrated intermountain rate case was to-day practically reopened for consideration of new tariffs proposed by the railroads which would effect increases ranging from ten to sixty per cent. on about seventy per cent. of the present schedules.

By a blanket order last June, which was expected to close up the long-contested case, the railroads were authorized to increase some rates, reduce a few others and permit the remainder to stand.

Congress in the meanwhile, however, amended the rate law so that no increase may become effective for a term of years without the specific approval of the commission. To meet this change in the law the commission has been obliged to suspend its decision authorizing increases, which was to have become effective October 15, and now will have to consider each increase on its merits.

GERMANY'S LAST SOURCE OF WAR SUPPLIES IS CUT

Embargo Tightened So as to Kill Kaiser's Military Power

Washington, Oct. 3.—Great Britain's new embargo on shipments of practically everything to Sweden, Norway, Denmark and the Netherlands is regarded here as a most important move in tightening the cordons which slowly but surely are killing the military power of Germany.

Coming close on the export embargo of the United States which is being administered to keep from the European neutrals everything that might supply the central powers, Great Britain's action is regarded as one of the most important of the war.

As the British embargo excludes everything except printed matter, about the only thing that will be permitted to go to the German people by way of the neutrals will be expressions of world opinion that they should reorganize their system of government to do away with the military autocracy.

In a figurative sense, Great Britain holds one end of the rope and the United States holds the other. Gradually but surely as it is being drawn taut the military power of Germany is being strangled. The embargo cuts off the supplies she has been receiving through the adjacent neutrals.

Everyone recognizes the value of expert opinion. This is the age of specialism, and when we have work of importance to be done, we go to an expert in his line.

Years ago it was realized that medicine covered too broad a field for any one man to master its every branch. Hence, the doctor who specialized in some particular branch became the most proficient and the most successful.

The wonderful success of the great blood remedy, S. S. S., is due largely to the fact that it has not been recommended as a cure-all, but strictly for those diseases having their origin in a disordered condition of the blood. For more than half a century it has been used with highly satisfactory results for Rheumatism, Catarrh, Eczema, Scrofula, Tetter, and other blood diseases.

Actress Tells Secret. A Well Known Actress Tells How She Darkened Her Gray Hair With a Simple Home-Made Mixture. Miss Blanche Rose, a well-known actress, who darkened her gray hair with a simple preparation which she mixed at home, in a recent interview at Chicago, Ill., made the following statement: "Any lady or gentleman can darken their gray hair and make it soft and glossy with this simple recipe, which they can buy at any drug store at very little cost. Apply to the hair twice a week until it becomes the required shade. This will make a gray haired person look 20 years younger. It makes the hair soft and glossy, is not sticky or greasy and does not rub off."

LIMA BEAN AND BELL MOON VINES COVER HIS HOME

John F. Rupp, of Shiremanstown, florist and seedman, has some Herbert A. Hoover, the national food dictator, one better. Besides conserving food and following the rules laid down by Hoover, Rupp has found a unique way of utilizing the plants to make the exterior of his home beautiful. He has planted lima beans and bell moon vines at the front and rear of his two-story brick home in Rupark. The lima beans have soared to a great height and covered the entire side of the house. The moon vines have climbed nearly to the roof and have practically covered the windows, making a beautiful picture. Besides these two plants Mr. Rupp has a goose plant which attracts great attention. He will send pictures to Washington.

Words Mark Freedom From Rule of Metal. The epochs of civilization may be said to begin and end with the discoveries of the different metals. The primitive Aryans from whom we English-speaking people all descend, knew only one metal and had only one word, "copper." But the Teutons, before our Anglo-Saxon ancestors left them had made words for gold, silver, lead, tin and iron. We speak of the different ages of copper, bronze and iron. Some have called the Nineteenth Century the age of steel.

As man advances in his conquest of nature by means of implements made from ores wrested from the hidden recesses of the earth, his spirit is freed from its subjugation to matter, and thus his very culture may be said to be dependent upon his mastery of the metals.

It is a far cry from the Bronze Age to the New Universities Dictionary. But the latter has been made possible by the advance from bronze to steel. And this paper has made it possible for everybody to own a New Universities Dictionary, the greatest means of self-culture within reach of the masses. Our coupon offer elsewhere in this issue tells you how and where.
