25 cent bottle of "Danderine" makes hair thick, glossy and wavy

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandrum is merely a matter of using a little Danderine.

is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Washington, Oct. 4.—Navy officials deprecated to-day publication of reports that go too far in either direction as to the progress of the campaign against German submarines. There is no reasonable ground, they said, for feeling that the submarines have been definitely beaten because the announced losses have decreased recently, while on the other hand there is nothing in the present situation that warrants serious apprehension on the part of the allies.
