

UPPER DAUPHIN TO GET PRESERVE

Plans Being Matured For a Game Reservation in the Lykens Valley Soon

The upper part of Dauphin county may get one of the half-dozen new state game preserves which are being considered by the State Game Commission for establishing next year.

The county has some fine woodland and in addition to a portion of the 8,000-acre state reserve owned by the Forestry Department in the Williamstown district there are some tracts nearby which can be leased by the state at a nominal figure.

The state game preserves have proved such a success in replenishing game and in maintaining a place where the game can propagate.

WALK ERECT AT EIGHTY

Because a man or woman is old does not mean that they must walk along bent over and supported with a cane. A man can be as vigorous and healthy at eighty as at twenty if he aids the organs of the body in performing their functions.

All diseases whether of a malignant or weak character tend to tear away our vitality. You must counteract disease in its incipient stage if you would live a happy and useful long life.

quiry into the milk situation at Lancaster to-morrow upon the lines of that recently conducted in the Pittsburgh district. Chairman C. E. Carothers says that the plan is to start meetings Saturday afternoon and to hear first the producers and then the distributors. Consumers will be heard if they desire. The inquiry was directed at the request of Howard Heinz, of the State Public Safety Committee.

The members of the state commission and state officials start from Philadelphia. Over 100 veterans of the five Pennsylvania organizations in the battle will attend the exercises, which begin Sunday.

Drafted Men Start.—A three days' movement of drafted men to the three camps to which Pennsylvania is tributary started to-day. These men are to make up shortages in the movements of the first quota. About 1,600 men are to go. Today's movement should be 750.

To Ask Answers.—The Public Service Commission will call upon turnpike companies in Lancaster and other eastern counties charged with failing to properly maintain their roads in recent complaints to file answers. The complaints appear to be growing numerous as are objections to the proposed increases of trolley fare from five to six cents reported from a score or more counties of the state.

Grape Crop Short.—Pennsylvania's grape crop will have a fair showing in spite of the lateness of the crop and the weather conditions, according to reports received at the State Capitol from the Erie district, which produces most of the grapes. In eastern counties the crop was not up to the mark in many instances. Shortage of labor to pick the crop caused some loss.
