STEELTON READY GIANTS ARE HAPPY BUNCH CONFIDENT OF VICTORY; NcGRAW MAKES NO CLAIMS

By Associated Press
On Board the White Sox' Special Train, Oct. 12.—The Chicago White Sox having lost their edge on the world's series by dropping two games to the New York Giants, are hurrying west to-day to meet the Polo Grounders at Comiskey Park, where the American Leaguers hope to come out in front again. The Sox were none too happy a lot as they contemplated eighteen consecutive innings of play without scoring a run against the Giants on the Polo Grounds.

THE NERVE GETTER

We have here and there heard a few remarks passed about "nerve getting" or a "nerve test" in football, baseball, tennis, boxing and golf. But after listening to a young Canadian the other night all the above tests seemed frivolous an dfutile and foolish and flippant. He was young Major Bishop, aged twenty-three, of the Canadian Flying Corps. About all he has done in the last six or eight months was to partake in 112 air fights, bring down forty-seven German machines and collect no less than nine of these in one day.

THE TEST

t part of it is merely an introduction, lifted from the official records enty-three-year-old major was explaining various ways to battle in

One "nerve test" that he outlined was as follows: You see a hostile machine rushing at you through the air, firing a machine gun en route. One might dive, or loop the loop, or flutter around. But, according to young Major Bishop, one of the best ways was to star head-on for the machine, also firing a machine gun en route. This, he said, was the ideal nerve test. The one that lost his nerve first also generally lost his life first. In either decided to quit, then it was a case of double annihilation. A tackle who dives for a runner in football is known to have his share of nerve, How, then, about the citizen who rushes head-on toward a hostile airplane in a nerve test 15,000 feet in the air?

admirers do not know what to look for. The first game here and the third in New York were decided by breaks of lucks, according to local opinion. The better team won the second and fourth games.

At scoreboards here yesterday, the crowds seemed almost evenly divided in their allegiance, which is surprising. Likewise there has been plenty of Glants' money to cover Sox wagers on any single game.

That the Glants have regained their confidence is admitted here, but Sox admirers cite the fact that Comiskey's teams have always been great money players and show their best when put to crucial tests. The fifth game looks like the test. If New York wins the odd game, Sox partisans will lose most of their hope as well as most of their bankrolls.
