It does not take much imagination to picture the conditions in which a man has to live on the western front...

Every day this country joined the war, newspaper readers in America are familiar with the active efforts...

It makes a very interesting point at for some years really qualified men of science have known that cigarettes were a very mild form of indulgence...

MEN FROM 18 TO 40 ARE PROPOSED FOR ARMY DRAFT

Would Give the Government 12,000,000 More to Draw From

Washington, Oct. 15.—Congress will be asked immediately on reconvening to include men from 18 to 40 in the draft.

The amendments will be introduced by Representative Julius Kahn, Republican of California, ranking member of the House military committee.

Army officials are assuming that this is to be no short war, and every man who would not be more useful than a soldier is needed to bear arms.

The amendments will provide that every man between 18 and 40 shall be registered for military service.

The Diary of a U-Boat Commander

(Copyright, 1917, by the New York Herald Co.—All Rights Reserved) (Copyright Canada by New York Herald Company) (Translated from the Original German by Irving R. Bacon)

"Well, Fritz, suppose you were in his place, would you not act the same way as he?" In nine cases out of ten I have to admit that I would act in precisely the same manner...

"If there should be a war—well, I am a naval aviator and my all too brief experience in submarine work will not have been wasted."

The "impossible" has been realized. War has virtually been declared. Austria's desire for revenge against Serbia for the assassination of her archduke pair has set on foot the armies of all Europe.

Nothing appears to escape our Argus-eyed government. Why order me to report to Kiel unless they knew of my penchant for submarines? At any rate, I hope that if there must be war, I shall be assigned to the U-boat branch of the service.

Our friend Fritz, who has been freed now that his Englishman is out of the hospital and declines to press any charge, is even more pessimistic in his prediction of the war prospects.

In one of his characteristic talks Fritz treated us to a veritable dissertation on which might be termed "Things in General and Hatred and Revenge in Particular."

"Have history and your own experience spoken to you in vain?" he said. "Have you not yet learned that of all animals man is the most bloodthirsty, ferocious and cruel?"

To Start Sunday Closing Campaign in Two Weeks

The Sunday Law Protective League of Harrisburg is making plans to wage a crusade against the Sunday selling by tobacconists, confectioners and other dealers keeping open on Sunday.

"And what are entire governments but hypocrites? Is not the so-called 'charter of liberties' a mere euphemism for what everybody ought to know by its right name—a restraint to hold each nation in leash to prevent it from attacking and destroying its neighbor?"

"If you could look into the future markets you would buy supplies of these goods for a year or more ahead."

"The markets are 'up' and will be up further to a mighty high notch—so this is an event of the utmost significance in domestic economy."
