NEW DRAFT PLAN TAKES MEN WITH NO DEPENDANTS

Would Classify Men With Wives and Children and of Industrial Value

Washington, Oct. 18.—A comprehensive new plan for applying the Army selective draft which would take first men only without dependant

and of no particular value to war industries and establish various grades of dependency and industrial value from which future drafts would be made strictly on the selective basis

has been worked out tentatively by the Provost Marshal General's office and discussed with the President.

It is proposed to formulate in each local draft district a table of all registrants, placing each in a column tentatively in a number of dependants and industrial value in the third class, those with a wife and one child in the fourth, and so on.

Similarly the vertical columns might represent certain industries arranged according to their respective merit as war necessities.

Industrial classes under consideration in this plan are: Notwithstanding the absence of most of them, who are discussing the proposed plan with their state governors.

For instance, horizontal columns or classification would be based on dependency. Men with no dependants would be placed in the first class, those with dependent distant relatives in the second class, those with wives in the third class, those with a wife and one child in the fourth, and so on.

Thus the table with horizontal dependency classifications and vertical industrial classifications would hold a place for each registrant in accordance with his dependency or industrial value.

The plan involves a determination by the government of what industries are the most valuable, and this is giving officials considerable difficulty.

The examination of all men immediately examination of all men registered, but this course depends on an appropriation which cannot be obtained until Congress convenes in December.

RED CROSS SEWS BY ELECTRICITY

Device Enables Women to Turn Out Much More Work in a Week

Steelton Red Cross Society is fast filling its quota of knitted goods for the National Red Cross. Seven boxes of materials were shipped early in the week and two yesterday.

Sixty-nine comfort kits for Steelton men in the Selected Army at Camp Meade, were sent yesterday. This included twenty-four kits for aliens and the remainder for Americans.

At yesterday's sewing there were sixty women working. This is the largest number at work for some time and the appeal for workers has been answered.

SHE FEELS BETTER NOW

Was Tired and Had No Ambition. Mrs. F. Kautz, 610 Wisconsin street, Harrisburg, says: "For a long time I was bothered with stomach trouble and nervousness."

My stomach was sour and there was an accumulation of gas. Had pains in side and back, also palpitation of heart. I was tired most of the time and had no ambition to do my work.

I gave Sanpan a trial, and was surprised at the promptness in getting results. I started to improve and am now able to do my work without feeling tired and worn as before.

Sanpan is now being personally introduced at Keller's Drug Store, 405 Market street, Harrisburg, where the Sanpan man is meeting the people.—Adv.
