

DOCTORS ENDORSE TOBACCO FUND FOR SOLDIERS

Smokes Tide Youths Over Nervous Strain, Physicians Find

The medical fraternity endorses the scheme to supply the boys at the front with tobacco and cigars. This is what the Medical Journal has to say about the plan.

"Some clergymen object to the distribution of tobacco among the soldiers at the front. It is hardly likely they will carry any weight with the authorities. The intense nervous strain imposed by the conditions at the front in the present war requires that everything possible should be done to allay nervous irritation.

"Amusements for the men when relieved of duty at the immediate front are recognized as an important factor in preventing nervousness. Many of the men in the Army are confirmed smokers, and to deny these men tobacco is to induce a high degree of nervous irritation which will materially militate against their efficiency.

"It would be the height of folly, both from the medical and a military standpoint, to deny tobacco to the men at the front."

A New Face Without Surgical Skin Peeling

The surgical operation of face peeling is too radical, too severe. There is a better way of removing offensive blemishes and one that is entirely safe and rational. Ordinary mercurochrome was causing the dehydrated and scaly skin to come off in small pieces and gently. Unlike the surgical process, the skin is not forcibly taken off in big pieces all at once, but almost invisible flaky particles are absorbed by the wax and about two weeks are required to complete the transformation.

Catarrhal Deafness May Be Overcome

If you have Catarrhal Deafness or head noises go to your druggist, get a bottle of Catarrhal Deafness (double strength), and add to it 1/2 pint of hot water and a couple of drops of sugar. Take 1 tablespoonful four times a day.

OLD SORES, ULCERS AND ECZEMA VANISH

Good, Old, Reliable Peterson's Ointment a Favorite Remedy "Had 51 ulcers on my legs. Doctors wanted to cut off leg. Peterson's Ointment cured me."—Wm. J. Nichols, 40 Wilder St., Rochester, N. Y.

NEW CHURCH TO BE ERECTED BY SECOND BAPTIST

Old Structure Burned; Will Burn Mortgage and Break Ground Sunday

The Second Baptist Church is rallying for a new church building on a new site in South Cameron street, near Market. In the rally the church, under the leadership of their pastor, the Rev. Albert J. Greene, is trying to raise \$3,000 as first payment on the new structure.

April 27, while the ladies of the church were holding the eighth annual bazaar, the old and much demolished building was partly burned down. The structure was not worth rebuilding and they have worshipped on the third floor of the Swab building, corner of Market and Thirteenth streets, since then.

The entire church is organized for success in this rally, even the children of the Sunday school. The adult members of the church are soliciting from their friends and the general public with \$10 and \$20 coupon books, and the children are using \$1 coupon books, all being organized under captains.

But the following named members are soliciting with subscription books in which is written the authority of the church with the seal of the corporation in it. To whom it is hoped that the people of Harrisburg will respond liberally. Mrs. Ella Brumback, Mrs. Alice W. Greene, Mrs. Hannah Jones, Miss Anna M. Carter, Harry C. Greene, William MacDonald Felton, William Hicks, John W. Warrick, James Richardson, and the Rev. Albert Josiah Greene, or send your contribution to A. K. Thomas, treasurer of the building committee of the Second Baptist Church.

The Second Baptist Church is the oldest colored Baptist church in Central Pennsylvania, having been organized in 1869.

Sunday, October 21, at 3 p. m. the completion of the new church building in South Cameron street will be held at which time the mortgage on the old site will be burned and the ground broken for the new church building, which is to cost more than \$20,000.

Pure English Wanted at Big Schools

The latest Oxford movement is an association of learned professors to encourage the use of pure English in speaking and writing. The movement was started by the poet laureate, Robert Bridges, and is supported by Thomas Hardy, the novelist, and Sir Walter Raleigh, professor of English literature at Oxford University, and other prominent men.

The exact objects of the society have not yet been announced, but it is understood that there will be lectures and publications in favor of the purity of the written and spoken language and against the incorporation of foreign words. An effort will be made to make polite speech consist of terse, vigorous English synonyms and inaccumbent pronunciation as "mayeb" for "nature," which is an example of the manner in which the speech of educated English persons is being gradually changed.

We are assisting this movement by means of "The New Universities Dictionary," which we are now offering to our readers almost as a gift. It contains 40,000 words with their proper pronunciation. For every day use it is equal to the best, and for the busy man or woman, better than most. Our coupon printed to-day's paper, gives the terms to our readers.

WOMAN CELEBRATES SECOND SILVER WEDDING

Los Angeles, Oct. 18.—Her second silver wedding was celebrated recently by Mrs. C. T. Reed, of this city, although one silver wedding is as far as most married people get. Mrs. Reed married her first husband when she was seventeen years of age, and twenty-five years later celebrated a happy wedding anniversary. Now, many years later, she is observing a second anniversary of the same nature.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it! Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quart of the best beauty lotion. It is simple and complex, beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

FROM THIRTY CLERKS TO 1,800

Ordnance Department Has Made Enormous Expansion Since Start of War

In connection with the announced campaign of the Gun Division of the Army Ordnance Department, for an army of stenographers, typists, index and catalog clerks and other clerical assistants, it is interesting to observe the tremendous expansion necessitated in the Ordnance Department since the beginning of the war, particularly with regard to procuring office accommodations for the clerical workers. It is impossible to give exactly the figures as to the number of employees because the removal of office workers for the "Civilian Personnel," as they are technically known, is going on every moment of the day. However, it is known that at the opening of the war there were only thirty members in the "Civilian Personnel" organization of the Ordnance Department stationed at Washington. Today a little more than five months after the declaration of war, there are employed in the Ordnance Department in Washington alone, more than 1,800 office workers. Estimates recently presented to Congress by Brig. General William A. Crozier, Chief of Ordnance, called for 3,022 additional such employees by the 30th of June, 1918.

Spreads to Other Offices. To provide offices for the enormous number of men has been one of the problems of the War Department. At the opening of the war the entire Washington office force of the Ordnance Department was confined to the suite of offices assigned to that bureau in the State War and Navy Building. The mushroom like growth of the organization, however, has already caused the Department to spread into three outside buildings. The Ordnance Department is occupying the equivalent of four large office buildings and is looking forward to still greater expansion having in view the erection of temporary structures and possibly an additional permanent building.

The desire to be in Washington in such striking times seems to have swept over the entire country. At present the great number of young women who are in Washington in government service as stenographers, typists, schedule clerks, etc., is particularly noticeable at the noon and at the closing hour of the government offices. They fill the sidewalks at these times and in the theaters in the evenings one sees them in groups. They apparently have come from all over the United States, many of them being in Washington for the first time, and they are enjoying hugely the many historical features of the city.

While there are constant newcomers the supply does not begin to keep up with the demand for stenographers and typists, particularly in the general clerical aids and mechanical draftsmen are being asked for every where. Regular Civil Service channels have proved inadequate to produce the number required. This has resulted in each department endeavoring by its own efforts to recruit for its ranks the needed stenographers and typists. The Gun Division of the Ordnance Department has launched a vigorous campaign of its own to encourage the taking of the newly modified civil service examination by men and women who really wish to do their share for the nation but have not been fully informed how they may assist, in fact, a special force has been dedicated to this work and is sending inquiries broadcast for stenographers, typists, schedule, index and catalog clerks, and mechanical draftsmen, all of whom are being asked to communicate with the Ordnance Building, Gun Division, Ordnance Department, Washington, for particulars as to these positions.

Odd Fellows Elect Altoona Man Chief

Bradford, Pa., Oct. 18.—The grand encampment of the Independent Order of Odd Fellows of Pennsylvania has opened its eighty-eighth annual convention here. It was estimated that 25 delegates and grand officers are present and more are expected to bring the number up to 300.

The grand encampment followed immediately the close of the Department of Pennsylvania, Patriarch Militant of the branch of the order elected the following officers: Present, Charles J. Gutway, Altoona; vice-president, General Richard L. Lippey, Easton; secretary, Lieutenant Colonel H. W. Hinds, Altoona; treasurer, Lieutenant Colonel W. V. Brown, Harrisburg; aid, General Charles G. Gutway, Altoona; guard, Captain William H. Demman, Philadelphia; officer of the day, Captain Charles G. Gutway, Altoona; and picket, Colonel R. L. Ellsworth, Franklin, Easton, Pa., was selected for next year's grand encampment.

HOTHOUSE RELIGION

When I was a boy I saw an advertisement over a little chapel. "Come and hear the weeping preacher!" The horror of it all oppressed even my childish mind, and I recoiled from the article. The finest things can never be forced. Even humor loses its exquisite essence when it is the product of the hothouse. And so it is with religion. "trying to be funny" scarcely ever succeeds. We cannot even force our courtesies without perverting them into professions.

LAUNCHING THE SIBERIA LAND

Siberia, which I have pictured for years as a bleak succession of desert and forest, I shall now remember as one of the fairest lands upon which my eye has ever rested. Rolling hills and endless plains, forest-clad slopes and great fields of grain ready to harvest. Lovely rivers winding away to the forest—fire-tints of the lingering sun, which in Siberia and Russia is very much of a night-owl in summer. Siberia seems to have everything lovely and worth while, except people. Every one seemed to be the station, but behind that humanity seemed to become invisible. After the Chongtu plain, Siberia seems as uninhabited as a haunted house.—Maynard Owen Williams, in The Christian Herald.

A SURRENDER IN THE AIR

GERMAN AERO SURRENDERS. One of the most remarkable photographs ever made. It shows a German aviator in the act of surrendering to his French adversary. The picture was made by the observer in the French machine. The German driver is seen standing in his machine with arms upraised in token of surrender. Lieutenant René Grassal, of the French army, made the photograph. In a subsequent combat Lieutenant Grassal was killed.

State College Concludes Beef Breeding Experiments

Among the conclusions drawn from experiments with beef-breeding cattle at the Pennsylvania State College may be mentioned the following: (1) Selection of the cows that were regular breeders and the elimination of nonbreeders and those that aborted during the first four years of the investigation has resulted in the production of 100 per cent calves during the last two years

of investigation. Selection of cows that are good milkers and possess good beef form, size and constitutional vigor, was found necessary for the production of calves that would make substantial gains in weight and development.

(2) Breeding and growing stock were maintained in excellent condition throughout the winter in open quarters which provided dry shelter and an exercise yard. This practice proved a safeguard against tuberculosis.

(3) The use of breeding bulls of merit increased the average merit of the females of the herd during the experiment.

(4) Heifers dropping calves at twenty-six or twenty-seven months of age are stunted in development, especially those that are heavy milkers, and fail to develop to the extent that heifers dropping their calves at thirty months do. Moreover if the time intervening between calving is extended to thirteen or fourteen months after the first calf is born, heifers dropping calves at twenty-six or twenty-seven months of age largely recover their stunted growth and development.

American Navy Prepared to Defend U. S. Coast

Germany Send U-Boats. Washington, Oct. 18.—Although viewing with skepticism reports that Germany is planning to establish a submarine war zone off the United States coast, naval officials yesterday admitted that measures already have been taken precautionary against any such naval warfare by Germany.

Navy Department authorities declared that if the Berlin Government had any such intention it would not advertise it, and also that such operations could be conducted only with the greatest difficulty on account of the lack of U-boat bases on this side of the Atlantic. Officials said they had heard unofficially that Germany had built 2,000 submarines, but doubted the reports; no information in the possession of the Navy revealing German submarines of more than some 500 tons. The largest possessed by the United States, it was stated, were 515-ton boats, although a larger type is being constructed. The 500-ton submarines are large enough to cross the Atlantic, however, it was declared, American submarines also find it not difficult to accomplish that feat.

HONORS FOR REV. MILLER. The Rev. John H. Miller, pastor of the Holy Communion Church, was re-elected statistical of the Ministerium at the conference which adjourned Tuesday evening. The other officers elected were: President, the Rev. H. K. Lantz, Shiremanstown; vice-president, the Rev. Frank Cronan, Elizabethtown; treasurer, the Rev. J. H. Strong, Lebanon. The Rev. Mr. Miller and the Rev. Reinhold Schmidt were the delegates representing the local churches at the conference.

Two Are Commissioned Ensigns in U. S. Navy

Two more Harrisburgers have joined the ranks of commissioned officers of the United States Navy. Professor Fred C. Burris, 315 North Sixth street, a member of the faculty of the Central high school, and Samuel C. Hall, 118 Green street, a senior in the Wharton School of Commerce, received word yesterday that they had been commissioned as ensigns.

POSLAM EXCELS IN INTENSITY OF HEALING POWER

Poslam possesses healing energy so highly concentrated that one ounce of Poslam is worth a pound of ordinary ointments less efficient in the treatment of eczema or any eruptions of the skin. Talk with those who have been healed of aggravated skin troubles who have used all kinds of remedies AND THEN USE POSLAM, and they will say this even more emphatically. Results come quickly. Itching stops; angry skin is soothed; uncertainty is dispelled, so little Poslam does so much. Sold everywhere. For free sample write to Emergency Laboratories, 243 West 4th St., New York City.—Advertisement.
