

### HIGH SCHOOLS A GREAT HELP

State Report Shows Where the Boys Saved the Day For Adams County Men

The State Board of Education calls attention in a bulletin just issued to the fact that orchard growers, especially those in the South Mountain apple belt of Adams county were materially helped in gathering their crop this fall by forty-eight boys from the West Philadelphia and Northeast Manual Training High Schools of Philadelphia. The boys are declared to have rendered "genuine service on some farms," coming at a time when the labor shortage was most severely felt in that section.

This is the first time that a state bulletin has referred to aid given by high school boys from a city on farms and it is stated that the farmers and fruit growers "have requested that the camps be established again next summer. The boys' Working Reserve and the State Committee of Public Safety are commended for the part they took in organizing the boys for agricultural work."

The Board has also announced that Americanization schools for instruction of foreigners have been established in the Shenando Valley, ten teachers being employed in four boroughs, with instruction on Monday and Friday evenings. The class is maintained exclusively for preparing aliens for the examination prior to securing naturalization papers.

Wants Action—In an effort to speed up the issue of state reports and bulletins, Superintendent of Public Printing Long has called upon the state printer for a statement of what publications have not been made. Some of the bulletins are three months behind and reports for 1914 have not yet been issued in a few cases. The legislative handbook for 1917 has not yet been issued and efforts to hurry it along have been made.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.
