******** Easy to Make This: Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" is usually plain granulated sugar syrup. Nothing better, but why buy it? You can easily make it yourself in five minutes. To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex (60 cents worth) in a pint bottle, and fill up with home-made sugar syrup. This gives you a full pint—more that you can buy ready-made for \$2.50. It is pure, good and very pleasant—children take it eagerly.

You can feel tais take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of philegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of Norway pine extract, famous the world over for its prompt results. Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft.
