Millions of Pounds of Sugar Is Found Hidden; False Flour Labels

Faise Flour Laders By Associated Press Buffalo, N. Y. Oct. 23. — Federal Secret Service agents to-day reported to Washington the discovery in a Buffalo warehouse of millions of pounds of sugars in bags and barrels labeled "Top Crust Flour." Notations on the packages, it was said, indicated that the sugar has been coming into the warehouse over a period of several months. A Federal agent, who made a survey of the contents of the building, estimated the amount of sugar at 150 carloads, or about 10,000,000 pounds. Around immense piles of sacks con-taining the sugar, the Federal agent said he found a screen of other ar-ticles, while some of the containers marked "Top Crust Flour" actually had hour sprinkled over the outside.

Kidney and Bladder weakness re-sult from uric acid, says a noted au-thority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burn-ing, scalding sensation, or setting up an irritation at the neck of the blad-der, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the wa-ter passes sometimes with a scalding sensation and is very profuse; again there is difficulty in avoiding it.
