

FISHING CREEK CASE IS NOTABLE

Briefs Will Be Filed by Both Sides and Argument Heard Some Time Later in Year

The application of the Country Club of Harrisburg for an order by the Public Service Commission for the abolition of the grade crossing at Fishing Creek Valley road, near the entrance to the new club grounds, bids fair to occupy considerable attention of the Commission. At the conclusion of the hearing yesterday afternoon Commissioner Alcorn directed that briefs be filed and stated that the whole Commission would sit later on to hear argument. Twenty-five days will be occupied in filing of briefs and answering. The manner in which the railroad's attorneys contested the application drew considerable attention and it was apparent that the plea that railroads desired to follow the national injunction to economize would be made much of. However, there was not a little testimony presented by residents of that section and by members of the club that the crossing was a dangerous one. In the closing of the case Charles H. Bergner, counsel for the Pennsylvania railroad, said that the crossing matter had never been heard of until the new Country Club was located where it is, but John W. Reilly, of Fort Hunter, said afterwards that five years ago the residents of that section had presented a petition to the officials of the Northern Central

Railroad asking for abolition of the crossing as a dangerous place. **Tree Planting General.**—According to what was learned at the Capitol to-day, state officials in a number of places are taking part in tree plantings in observance of Arbor Day. The day is being very widely observed. **Capitol Does Well.**—Capitol Hill's campaign for the Second Liberty Loan resulted in 509 applications for \$49,300 of bonds subscribed in the State Capitol, while most of the heads of departments and quite a few attaches subscribed through home banks. The latter was the case in several of the smaller branches of the government, every one of whose people subscribed. The Health Department led with 105 applications for \$10,000, the Highway being next with 92 for \$9,100, others being Public Service, 57 for \$6,300; Agriculture, 61 for \$6,000; Labor and Industry, 48 for \$3,900; State, 23 for \$2,850; Public Grounds and Buildings, 22 for \$2,600; Workmen's Insurance Fund, 37 for \$2,500; Water Supply Commission, 15 for \$1,450; Library, 9 for \$550; Insurance, 4 for \$2,400, and 23 in other branches for \$1,650. A. A. Wert, of this city, was designated by William Jennings to organize Capitol Hill and did this work well, so the results show. **More Bonds Issued.**—The Public Service Commission has received certificates of notification as follows: Pittsburgh, Lebanon and Western Railroad bonds, \$150,000; Reading Transit and Light Co., Reading, bonds, \$3,000,000; Philadelphia Suburban Electric Co., Philadelphia, \$171,000; Walker Electric Light, Heat and Power Co., Clearfield, common stock, \$2,500; Altoona and Logan Valley Electric Railway Co., Altoona, bonds, \$52,000. **Hay in Demand.**—According to a statement made at the statistical bureau of the State Department yesterday, almost twenty per cent. of the hay crop of Pennsylvania has been baled for distribution. The crop, which has been very heavy in some sections, is in much demand, a considerable part being for export. **Bulletin Issued.**—Dairy and Food Commissioner Foust has issued a bulletin on the summer work of his agents. It shows that hundreds of samples were taken of summer drinks and foods. A plea is made to eliminate kitchen wastes. **Hartman Here.**—D. Lloyd Hartman, the new chief of the bureau of statistics of the Department of Labor and Industry, was here yesterday making ready to assume his duties. **Blight Is Dangerous.**—Statements that chestnut and other blights are killing squirrels in the South Mountain country are being looked up. Similar inquiries were made last year. **In the Field.**—Dr. Joseph Kalbfus, secretary of the State Game Commission, has been in the field observing enforcement of the game laws most of the week. **RESERVES TO BE EQUIPPED.**—The committee of captains of the Harrisburg Reserves will tonight let contracts for the drill uniforms and equipment of the organization. Companies A and D will have drills at the Armory to-night. **TO ORGANIZE LODGE.**—Steelton Nest, Order of Owls, will be organized at a meeting to be held in G. A. R. hall this evening. George B. Pisle will have charge of the organization. Officers will be elected this evening and the lodge turned over in charge of National Organizer R. F. Webster, of Harrisburg. A class of candidates will be initiated into the lodge to-night.

Scarcity of Material Holds Up Work on Sewer
Scarcity of material is a big impediment in the progress of work on the new intercepting sewer. Several large orders of tile have been lost on the road and the supply is very low. G. W. If a shipment of tile arrives in the next few days, Mr. Ensign said that they would be able to finish up the work on the northern end of the sewer along the canal bed by November 10 and start at once on the southern end. Completion of work on the Conestoga street section is held up on account of the tile shortage.

The County Commissioners to-day refused the petition of W. John Bailer, colored, to run on the "Independent" party ticket in the Third ward, Steelton, opposing Peter S. Northumberland County Faces Bread Famine

Williamsport, Pa., Oct. 26.—A bread famine is imminent in Northumberland county on account of a shortage of flour, due to freight congestion. Several Mount Carmel bakeries have been forced to close, while none in Sunbury has supplies to last more than five days. State agents to-day took charge of an investigation in Northumberland county to check the rapidly spreading boycott of farmers who are alleged to have demanded exorbitant prices for foodstuffs. Unable to sell their products the farmers appealed to the State Agriculture Department.

Excellent Laxative For Elderly People

As we pass the prime of life the various organs of the body have a tendency to weaken, especially the bowels. Regularity in this important function is so essential to good health that old folks should be very careful to avoid constipation. A congestion of stomach waste in the bowels occasions indigestion, headache, drowsiness after eating, biliousness, belching, flat, pines, etc., and should be corrected immediately; it is the direct cause of much serious disease. The most effective remedy for constipation is a combination of simple laxative herbs with pepsin sold in drug stores under the name of "Dr. Caldwell's Syrup Pepsin." It costs only fifty cents a bottle, is mild in its action, does not grip or strain, and brings relief quickly in an easy natural manner. Get a bottle of it from your druggist and keep it in the house; it is the ideal family remedy. A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.
