You are asked to contribute to the War Camp Community Recreation Fund because broad, national support is necessary to the success of the undertaking. You are really contributing hours of sunshine and recreative pleasure to the boys who are enroute to battlefield trenches. It is a very satisfying feeling to know that you, personally, have been instrumental in keeping these brave lads safer from moral harm than an army has ever been before. Your contribution buys the brighter side of warfare—dances in private homes, fellowship in clubs, athletic tournaments, choruses. It means that there will always be a SAFE place for that boy to go. # Good Smoke Insurance King Oscar Cigars 6c

¶ Hereafter when you order a King Oscar, and the dealer says "6 cents" - don't quibble - don't look around for a five center - pay the price and thank your lucky stars for the opportunity.

¶ For King Oscars, mark you, are six cents because the same quantity of the same quality is stored away in them to-day that we've been putting into them for more than a quarter century.

¶ When we were confronted with increased tobacco and production costs that demanded a revision of price or quality, we could have cut down the size, and robbed King Oscars of their quality, but we didn't figure that is what you want.

We believed you would a whole heap rather have the same amount of the same good quality you have been accustomed to for years, and so we had to put on that extra penny.

¶ Every cigar manufacturer in the country is up against the same problem.

¶ Some — the conscientious ones - will raise the price or cut down

¶ The others will have to get busy with a quality adjustment. There's no other course left open.

The only other argument they might have would be the one about laying in big stocks before the price advanced.

¶ Uncle Sam tells us, however, that his census of the situation shows that on October 1st, 1917, the tobacco supply in this country was forty per cent. below normal.

¶ So that puts the quietus on the "shrewd-buying" argument.

It's got to be one of three things — cut the quality, cut the quantity, or raise the price.

Whatever others may do, we are going to serve up the same quantity of the same quality that has made King Oscars regular for 26 years and make 'em worth the six cents the dealer will ask of you in the future.

NOTE-If you MUST have a five center we're going to make such brands—as good as they can be made to sell at a nickel-but they WON'T be King Oscars.
