

RAILROAD RUMBLES
SELECTED MEN ARE DISSATISFIED WITH NEW CAMP

Pennsylvanians Would Like to Be Officered by Men From Keystone State

Atlanta, Ga., Oct. 29.—Pennsylvania drafted men who have been sent to Camp Gordon want to be transferred to some other camp. There are nearly 9,000 Pennsylvanians at Camp Gordon, and almost to a man, they have signed a petition to Governor Brumbaugh begging him to use his influence to have them moved from Camp Gordon at once.

The action of the Pennsylvanians has created a stir at Camp Gordon, but General Eben Swift, who is in command of the Eighty-second division, refuses to make a statement. There are rumors that the action of the men in petitioning to be removed may be construed as a breach of military regulations and may result in punishment.

Officers at Camp Gordon, however, refuse to discuss the situation and the matter has been referred to the War Department.

Training for actual warfare begins at Camp Gordon this week with allied officers as instructors. Several French officers have already arrived and other French and British officers are coming soon. Among the French instructors here are Lieutenant Françoise E. Bulet, a specialist in artillery fighting; Lieutenant Maurice De Fort, of the French engineering forces, and Lieutenant Adrian Gaj, of the Zouaves, a specialist in grenade throwing.

Major Joseph Thompson, ex-Senator from Pennsylvania, called at Camp Gordon and was the guest of C. M. Shuster, chief plumbing inspector for the post. Major Thompson is with the Tenth Pennsylvania Regiment at Augustus and came here with the Camp Hancock football team.

Railroad Notes
M. J. Cranford of the Pennsylvania Railroad police department, who was injured Saturday in an auto accident will be out today. He was in an auto trip with a well-known New York sleuth, in search for a prisoner. A big brewery truck collided with the auto, throwing Officer Cranford out.

Record freight business reported on the Harrisburg and Gettysburg branch of the Philadelphia and Reading Railway. The French engineering services yesterday. It is said plans for moving the troops have been received.

All reports for Liberty Loan contributions from the Pennsylvania Railroad have not been recorded to date. The total collection on the Philadelphia Division is estimated at \$176,000.

W. M. Shuster and H. F. Ziegler, Pennsylvania Railroad conductors, who have been ill, are again on duty.

The De Kalb street station of the Reading Railway Company at Norristown was entered by thieves, who secured \$50 in cash.

LOCAL OFFICERS IN HARD FIGHT

Shots Exchanged When Express Thieves Are Run Down at Shamokin

Detectives D. L. Miles and W. H. Kelley of the Adams Express forces made another roundup Saturday at Shamokin. They arrested Earl Reese and Charles Schlegel, wanted here on several charges of larceny, and said to be a part of a gang, operating on various lines of the Pennsylvania Railroad.

The capture of these men came after a hard fight. Both men and officers exchanged shots. Officer Miles was fired at five times. Reese held at 38-caliber weapon and surrendered only after Officer Keeley ran back of him, and kicked the revolver from his hand. Reese was also knocked cold. Schlegel tried to get away but was run down by Officer Keeley.

Found Much Booty
There was another tussle, but the fugitive was soon overpowered and handcuffed. Both men confessed to having robbed cars James E. Huber, and at other points along the main line and Sunbury division. They have been carrying on systematic stealing for six weeks.

The men found in their possession at Shamokin goods valued at \$1,500. The stolen articles included men and women's furnishings, cutlery, silverware, jewelry, cigars, tobacco, leather goods, hosiery and tobacco, cigars and cigars. It is the second pair arrested in two weeks by the Harrisburg sleuths.

Penny Sleuths Round Up Much Wanted Thieves; Stole Engine Brasses

Pennsylvania railroad police, under Lieutenant Edward J. Cranford arrested two brass thieves Saturday night. The men were James E. Huber, 47, white, residence 1119 Wallace street, and Charles Roy, alias Frank Ross, colored, aged 25 years, 1113 Monroe street. The men were caught with 1,000 pounds of brass in their possession.

This was the most important arrest made in this city for some time. The capture was made on State street bridge, the men being on their way to a hiding place with 1,000 pounds of brass in their possession. They had a horse and wagon. The booty was valued at \$500. This afternoon Alderman George Hovetter held both men in court in default of \$1,000 bail each.

The men-up was made by Officers Eshenbaugh, Eckerd and Morrissey. The brass was stolen from the Pennsylvania Railroad shops and included engine brasses weighing 50 and 60 pounds each. For sometime brass has been disappearing in small quantities. Burkley was an former railroad employe and has been closely watched.

War Relief Meeting to Be Held Friday Afternoon
Prominent War Relief workers will be here here Friday for a local meeting. It will be held Friday afternoon, November 3, at the Harrisburg Chamber of Commerce, 10 North streets. The meeting will be under the direction of Department No. 2, Pennsylvania Women's Division for War Relief.

Mrs. W. W. Atterbury and Mrs. E. M. Shuster, of Philadelphia, and Mrs. Robert V. Massey, of Altoona, will attend this meeting which will be presided over by Mrs. William B. McCaleb, president. A business meeting will be held from 2:30 to 4 o'clock, and tea will be served from 4:00 to 5:00 p. m.

PRESIDENT OPENS PLEDGE WEEK WITH APPEAL TO NATION TO SAVE FOOD

Washington, Oct. 27.—President Wilson, in a statement issued to-day, urges every home and public eating place in the United States to pledge its support to the food administration and to comply with its requests. His appeal marked the inauguration of Family Enrichment Week during which everybody in the country will be asked to become a member of the food administration in order to assume nation-wide co-operation in food conservation.

The statement follows:—The chief part of the burden of finding food supplies for the peoples associated with us in war falls for the present upon the American people, and the main supply on such a scale necessarily affects the prices of our necessities of life.

Our country, however, is blessed with an abundance of food-stuffs, and if our people will economize in their use of food, providently confining themselves to the quantities required for the maintenance of health and strength if they will eliminate waste and if they will make use of those commodities of which we have a surplus and thus free for export a larger proportion of those required by the world now dependent upon us, we shall not only accomplish our obligation to them, but we shall obtain and establish reasonable prices at home.

To provide an adequate supply of food, both for our soldiers on the other side of the seas and for the civil populations and the armies of the allies, is one of our first and foremost obligations for if we are to maintain their constancy in this struggle for the independence of all nations, we first must maintain their health and strength. The solution of our food problems, therefore, is dependent upon the individual service of every man, woman and child in the United States. The great voluntary effort in this direction was substantially initiated and organized by the food administration under my direction, offers an opportunity of service in the war which is open to every individual, and by which every individual may serve both his own peoples and the peoples of the world.

We cannot accomplish our objects in this great war without sacrifice and devotion, and in no direction can that sacrifice and devotion be shown more than by each home and public eating place in the country pledging its support to the Food Administration and complying with its requests. (Signed) WOODROW WILSON.

COLORED FOLKS IN PATRIOTIC RALLY

Dr. Crampton Chief Speaker in Farewell Service to the Young Men Who Leave

Colored people of Harrisburg and vicinity united in a great patriotic farewell meeting last night at the Bethel Church, in Briggs street, in honor of the young colored men who left to-day for the training camps.

The address of the evening was made by Dr. Charles Crampton, Dr. Crampton told the young recruits to the National Army that patriotic service depended upon willingness to serve in whatever capacity they may be assigned.

"The man who digs the trench is just as important to military success as the man who holds it," said he. "The private in the ranks is as essential to victory as the general who directs the movement. Every man must do his part, whether he may be called upon to do and to feel as a private all the responsibility that he would feel in higher positions." He urged that the low, do their whole duty there will be no question of early and complete success.

Other speakers were the Rev. Dr. Cooper, pastor of the church and Dr. S. J. Lewis. Patriotic music was rendered and special prayers made for the success of American arms.

GERMAN RETREAT IN FRANCE NEAR

[Continued from First Page.]
move expected and they must move back under critical circumstances from between the two wedges, those of Flanders and the Aisne, which have been driven relentlessly into their line by the British and French.

Believes in Italy
Italy is passing through a difficult moment, Mr. Baker says. The Austro-German drive is being pressed forward by imposing forces. But once before Italy stemmed the tide of an Austrian rush, under less favorable conditions for the defenders, he points out, and hurled the enemy back, with only a taste of victory during the first days of his terrific onslaught. Winter is now coming to the aid of the Italians.

The Secretary's review follows: "Renewed activity prevails in all theaters of war. Important developments would appear to be impending. Along the western, eastern and Italian fronts, in Macedonia, Rumania, Mesopotamia and even in East Africa, significant operations are in progress.

British Make Gains
The two outstanding features of the situation of the week are the relentless British offensive in the British salient, resulting in substantial gains of terrain of important strategic value and the sudden well aimed and sustained thrust of the French north of the Aisne.

It is evident that the allied drives along the western front are broadening in scope and intensity. The whole front, from the Houthout wood through the Passchendaele ridge to Lens and on to the Aisne is becoming the site of increasingly heavy allied pressure which the enemy is withstanding with difficulty.

The British are pushing on through the Flemish lowlands towards Roulers. Attacks Repulsed
The enemy, however, he might find a rift in the otherwise impregnable allied line at the point of junction between the French-British forces, repeated heavy counterattacks in this segment. These were repulsed.

"While the British attacks during the past week have been carried out with imposing effectiveness, it is apparent that the British command is SEEMS EVERYONE HEARD ABOUT IT

All want to try new drug that dries up corns so they lift out.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a corn cure, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any pharmacy, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, itching corn and instantly the soreness is relieved, and soon the corn is so shriveled, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

German Disillusionment Is Now Complete

Washington, Oct. 29.—It is assumed here that the German disillusionment is at last complete as to the inadequacy of American preparation. It is known that the high officials of the Prussian autocracy are acquainted with the extent to which the United States is expressing in concrete ways her resolution to fight the war to a successful finish. The preliminary period of our preparations has passed

with the first six months of our participation in the war. Congress has adopted legislation sufficient to enable the President to mobilize the power of the nation in practically any way he may see fit. The President is provided not only with adequate power but with ample supplies of money.

The first draft army is in contemplation. Our capacity for producing munitions has been expanded adequately for the prospective demands. Contracts have been made for enough ships to transport men and their supplies, together with ships to supplement the shipping fleets of our associates in the war. To summarize: The preparatory plans have been laid and it only remains for them to be carried through the processes of realization. The realization is certain and the ends that will be achieved are definitely calculable.

maneuvering in order to gain important tactical advantages at a minimum cost. "The casualties to the enemy are rising steadily.

"Slowly the allies are enlarging their gains in Flanders, driving into the heart of German resistance in the west.

Allied Superiority Evident
"The German armies fight on stubbornly. If any further evidence of allied superiority be needed, it seems to be supplied by the decisive successes won by the French during the week.

"This offensive was launched on a six-mile front near the west end of the Chemin Des Dames a dawn on October 23.

"General Petain so well masked his preparations that the enemy was taken by surprise as to the exact terrain chosen for the attack and was overwhelmed before being able to organize a concentrated resistance.

"The German lines were penetrated to a depth of well over two miles at one point.

"This first attack was immediately followed by a second assault in this same sector, crowned with full success.

"In three days' fighting the French have taken 12,000 prisoners, 200 guns of large caliber and a great quantity of other booty not yet enumerated.

"The possession of the captured fort at Malmaison, the key to the entire ridge and the villages beyond, now makes it possible for the French to enfilade the German positions along the Chemin Des Dames as well as to fire directly through the valley towards the fort of Laon.

"General Petain showed himself a pastmaster of strategy in being able to attain so decisive a victory in so brief a period.

German Retreat Probable
"The time has apparently come for another 'strategic retreat' of the enemy. It means that the Germans must again retire to a new entrenched and carefully prepared line if they intend to resist further in the west.

"It must be admitted that as a result of the battles of the Somme last year was carried through with consummate skill. The enemy retired destroying all cover and taking up positions of marked tactical and strategic strength.

"But the battle of the Somme had but one wedge. To-day we have the wedge of Flanders and that of the Aisne is being outlined.

"The bad weather continues to be the enemy's best protection. He is relying upon this factor to impede the allied advance and by so doing the battle area in slush, rain and fog give him a respite until he can prepare himself to meet a fresh onslaught.

News from the Italian front proves that the Austrians were able to bring sufficient pressure to bear in Berlin in order to secure German assistance.

"As the result of the concentration of an imposing array of artillery and massed battalions, the Austro-German forces have succeeded in penetrating the recently won Italian positions in the Tolmino sector.

"The broken, steep, mountainous character of the terrain makes it difficult to hold entrenched positions when once certain strategic objectives have been attained. These the Austrians have apparently captured in this sector which may result in the abandonment by the Italians of the Bainsizza plateau with they won after so valiant a struggle only a few weeks ago.

"Italy is passing through a difficult moment.

"We must remember, however, that in May, 1915, the Austrians attempted a similar onslaught. Then they had fine weather, a well-chosen terrain and above all the far superior fighting vigor of their armies to rely upon. At that time the Austrians won decided successes during the initial days of the fighting and pressed on to the edge of the Italian plain only to be stopped and driven back.

Loss Men and Material
"In the east, German naval operations in the vicinity of the Finnish gulf were not carried out without serious loss both in men and material.

"The Russian resistance apparently is consolidating.

"The Germans using the islands as a base, have now gained a foothold.

"The first landing on the Verder peninsula at the northern end of the Gulf of Riga was successfully carried out. A further attempt at another point failed.

"It is not probable that the Germans will undertake for the time being, more than a strengthening of the positions now held in the Riga sector.

"The retirement of the advanced enemy lines to a depth of fifteen miles in the region of the Dvina is reported.

"Engagements of some magnitude are noted along the Rumanian and Macedonian fronts, where artillery duels and raids are increasing in frequency. These, however, are not of more than local importance.

"In Mesopotamia, the British are continuing and consolidating their advance, driving enemy detachments out of important tactical points on the Taurus, and strengthening their whole line of defense.

"Rumors of an important move by the Turks, reinforced by certain picked German and Austrian units under the command of General Falkenhayn, which have repeatedly been reported throughout the near East, have as yet failed to materialize.

DIPHTHERIA AT HALIFAX
Halifax, Pa., Oct. 29.—Luther Loudermilk, who has been employed at Steelton for some time, is confined to the home of his parents, Mr. and Mrs. L. C. Loudermilk, suffering with an attack of diphtheria, having contracted the disease at Steelton. The house was placed under quarantine on Sunday.

FACTORY MAY REOPEN
Halifax, Pa., Oct. 29.—Rumors are floating about town this week that the Ryan shoe factory will shortly reopen its doors for business. The plant has been closed down for the past two years.

STEEL WORKS SHORT OF COAL
Lewistown, Pa., Oct. 29.—Shortage of fuel has caused one-half of the big Standard Steel Works to close down for a period of one week longer. These parts of the Standard Steel Works have closed down: Open hearth No. 1, half of open hearth No. 2, new wheel rolling mill and the tire mill. The outlook is no brighter and if relief is not forthcoming, other parts of the works will have to close. Part of the plant is operating with oil.

HALIFAX BOY IN FRANCE
Halifax, Pa., Oct. 29.—In a letter written to his folks at home, Herma Richter, of Halifax, with the United States forces in France, says he has arrived safely and is in the American camp. The location is interesting at the barracks comfortable.

Dives, Pomeroy & Stewart
Autumn and Winter Coats on New Lines
Sizes For Misses and Women

A Broad Range of Styles \$12.50 to \$115.00

They are so new and distinctive in style; so charmingly made that they all look their part of "new fashion," both to casual glance and to careful inspection. And practically every garment among the hundreds now on display is a reproduction of a higher cost model.

The coats in this special autumn and winter showing are developed of high grade fabrics, which include the season's best warmth-without-weight cloths, fine silvertip velours, soft Pom Poms and luxurious Bolivias. They come in navy and black, brown, tan, old blue, Pekin, plum, green, oxford and khaki. Some are half lined with durable satin or silk and some are richly lined throughout.

Two New Styles at \$12.50
New Styles at \$20.00 to \$25.00
Peau de Cygne Lined Pom Poms at \$27.50
Velours at \$25.00 to \$45.00

Smart, Good - For - All - Winter Frocks of Serge

Scores of women are buying their Winter frocks now—and almost every one of them ask for serge.

Many new arrivals have long line effects; some are of the favored Eton or Bolero type and all have the tendency to give the appearance of a complete costume. Here and there is to be found a fancy ornamentation, here and there an oddly shaped girdle, here and there a new idea in side drapery.

Serge dresses in all sizes and in all colors, \$15.00 to \$30.00
Wool Jersey Dresses are \$25.00 to \$35.00

Quality the Keynote of the New Suits
No Matter What the Price May Be

The suits of the new season groups are so trimly cut, so admirably proportioned and so well shaped that every woman who sees them feels the wisdom of adding one to her Winter wardrobe.

Every suit in this carefully chosen style collection carries with it the celebrated Dives, Pomeroy and Stewart shapeliness and tailoring that adds so much to looks and service. Lined with good quality silks and softly interlined, giving extra warmth and a softened contour.

Burella, Serge, Broadcloth, Velour

Black and navy poplin suits made in a plain tailored model; cape collar, cuffs and belt trimmed with bone buttons, \$22.50
Poiret twill chiffon broadcloth and poplin suits in brown, green, navy and black; the coat is made with an inverted plaited back finished with a broad belt; the large patch pockets, cuffs and belt are trimmed with fancy bone buttons; convertible collar of self material, \$25.00
Wool velour and chiffon broadcloth suits in taupe and navy; the coat is made with a full flare skirt and a high waisted model, large collar finished with broad band of Hudson seal, \$27.50
Chiffon broadcloth, wool velour and fine serge suits in taupe, plum, navy and black; the coat is made in a pointed model finished with a broad belt and trimmed with two large buckles, cape collar in-laid with velvet, \$39.50

Other New Suits: \$39.50 to \$95.00
Handsome styles, singularly graceful and highly individualized, all of them with such beauties of coloring, shaping and decoration that the most critical will find everything to praise. Chiefly copies of imported modes—at just half the cost.

Dives, Pomeroy & Stewart, Second Floor
