### Lancaster County Cabbages Worth as Much as Tobacco

Mt. Joy, Pa., Oct. 29.—Winfield B. Stoner, of Eden township, who was among the very first in this section to grow cabbage to any extent, has been shipping his crop for the last week. It is a fairly large one and of good quality. He is receiving \$20 a ton for it, which is an advance in price since he first began to raise it. Years ago he sold it as low as \$8 a ton and when it went to \$10 it was considered a good price. At present prices an acre of cabbage is about as profitable as an acre of tobacco. It is not as much trouble to raise and the farmer gets his money out of it much sooner.
