The bad condition of highways in Steelton, Middletown and Highspire, is emphasized by William J. Rose, division freight agent of the Pennsylvania Railroad Company, in a letter to J. Denny O'Neil, Commissioner of State Highways and Burgeses of Middletown, Steelton and Highspire. A meeting of the highway committee of council, of which E. C. Henderson is chairman, was held this afternoon. The committee made a tour of the highways to see where repairs are most necessary. Shortage of stone and scarcity of labor, council-

men say, is the cause of the holdup on repairs. The letter sent out by Mr. Rose is as follows: Mr. J. Denny O'Neil, Commissioner of Highways, Pennsylvania, Harrisburg, Pa. Dear Sir: Major W. H. Garrison, Jr., in command at the U. S. aviation warehouse Middletown, Pa., today calls our attention to the deplorable condition of what is presumably a state highway in Lower Swatara township, between the boroughs of Highspire, Pa. and Middletown, Pa. and also to the condition of certain portions of the highway presumably within the boroughs of Steelton, Highspire and Middletown.

The government has already expended a large sum in connection with the plant referred to, and further expenditure is anticipated. The operations at this plant are extensive and daily increasing, and as its name implies, is of vital importance as a factor in the government's operations which involve much vehicular freight and passenger travel over the highway referred to, while the general business of the industrial places named is also involved.

Large industrial developments are anticipated in the vicinity of Middletown, and in view of the fact presented, we join Major Garrison in the urgent request that these conditions receive prompt and serious consideration at the hands of your department. We have taken the liberty of sending a copy of this communication to the Harrisburg Chamber of Commerce, and the burgeses of Steelton, Highspire and Middletown, since the welfare and reputation of all these communities as well as that of the state itself is involved.

For obvious reasons, we should be glad to know the result of action has been taken to remedy the defect.

The recipients of this communication are most urgently and respectfully requested to give the subject very prompt and serious consideration.

The co-operation of all should result in such improved conditions as will satisfy the government as to our local highway conditions.

Active interest in these matters because of the pending crisis, makes for patriotism.

W. J. ROSE, Division Freight Agent, Harrisburg, Pa. NEW POST OFFICE CLERK William F. McCall, transferred from New York City to the local post office, assumed his duties here today. He succeeds J. Earl Keim, who has entered the foreign military postal service.

MANY HUNTERS TAKE TO FIELDS

High Water Mark in Number of Licenses May Be Reached

Opening of the rabbit hunting season which comes today is believed by men connected with the State Game Commission to have caused such a demand for hunters' licenses that the total for the year will be likely to go to 290,000, the mark of 1916 in spite of the fact that many men who have been regular hunters are now in the Army and Navy and that others are prevented by their work in industries from doing much hunting this fall.

Many of the counties report issuance of licenses at a rate exceeding the figures of last year, notably in the central part of the state. There have also been numerous applications for hunters' licenses from people living in other states.

The rabbit season opens to-day under the provisions of the new law. The limit is ten in a day and fifteen in a season. The game bird season is now in full swing.

Crossing Abolished.—The Public Service Commission to-day made an order for the abolition of what is known as the Mt. Dallas crossing on the Lincoln Highway in Bedford county and abrogated the cost of a change of the road, which is part of the state highway system, so that it will pass under a viaduct of the Pennsylvania railroad. This is the first grade crossing to be ordered abolished by the commission after an inquiry inaugurated on its own motion. The State Highway Department brought the conditions to attention of the commission which made an inquiry and requested that plans and specifications be prepared. The report of the commission, prepared by Commissioner Billing, allows damages to adjoining property owners to the amount of \$150 and assesses the cost elimination of the

crossing as follows: Pennsylvania Railroad, \$1,000; County of Bedford, \$1,000; Snake Spring and West Providence townships, each \$150; Broad Top Mountain Railroad and Coal Company, \$11,046.50, and the State Highway Department, \$1,045.50.

O'Neil Real Busy.—Highway Commissioner J. Denny O'Neil has awarded two contracts, which call for the construction of 20,948 feet of roadway in Cambria County. E. H. Brub, of Hollidaysburg, secured the contract for the improvement of 9,875 feet of vitrified block construction, sixteen feet wide. This section of road begins at Westley Chapel and extends through East Taylor Township. The price will be \$78,855.43, which was the low bid. The other award went to John L. Elder, of Ebensburg, Pa., at his low bid price of \$95,881.60.

Commission Breaks Record.—A statement issued by the Commission to-day set forth that in October it had disposed of 232 applications, the highest number in any month. These matters included 123 applications, 67 complaints and 32 contracts. There were 115 new matters filed during the month and at the end of the month 513 were open.

Public Service Cases. — The Public Service Commission to-day heard the application for transferring of properties of certain electric com-

panies in Philadelphia and Delaware counties to the Philadelphia Electric Company. The Commission has fixed November 9 in reading as the time for hearing complaints against the Reading Transit Company and November 8 in Pottsville for hearing the complaint of Tobin vs. Pennsylvania Railroad.

Can't Charge Commission.—The State Bureau of Markets was to-day informed by the Attorney General's Department that it has no authority under the act establishing the bureau to charge any commission for effecting any sale of agricultural products or putting buyers in touch with sellers. The opinion says "it was not the purpose of this act of assembly to have the Commonwealth engage in the commission business or to effect sales of agricultural products for commissions."

State Balances Fall. — The statement of the operations of the State Treasury during the month of October show that expenditures outran receipts materially, although this is

expected to be made up this month as it will be the close of the fiscal year and receipts are always heavy. Detail of balances—General fund, \$3,665,416.55; sinking fund, \$661,110.02; school fund (uninvested) \$20,408.62; game fund, \$242,909.86; bounty fund, \$129,390.63; motor vehicle licenses, \$129,390.63; fire insurance fund (uninvested) \$36,049.40; prison manufacturing fund, \$49,926.06.

Eddystone Cases Up. — The compensation claims arising out of the Eddystone explosion last April are now being considered by the State Board which is in session at Philadelphia.

O'Neil in West. — Highway Commissioner O'Neil is making a series of inspections of roads in Western counties and will not be here until the middle of next week.

"The Live Store" Always Reliable The Common Mistake About Prices

There's one mistake that's very commonly made by many people when they go to buy merchandise; it's the mistake that price really means anything, taken by itself. If you stop to consider that, you'll see at a glance how foolish it is to buy anything simply because it's low priced.

Take the matter of men's clothes for example. We have suits here as low as \$15 and as high as \$40 to \$50. You can buy a suit at either of these prices, or at any price between, in any one of the several stores in Harrisburg. It's quite absurd for us to expect you to come to us for clothes just because they're \$15 or \$40, or any other price; you can match our prices almost anywhere.

Honestly we don't want you to come, nor expect you to come for any such superficial reason. We would like to have you come here because of the spirit of "Service" we have; because your money—\$15 or \$50—is less important to us than Your Satisfaction; because we care more about what YOU get than what WE get, because whatever the price you pay, we're going to see that you get more value per dollar than you'll get anywhere else — We want you to come HERE for your
