WILSON URGED TO DECLARE WAR ON AUSTRIANS

American Defense Society Wants U. S. to Send Ten Million Men Across Seas

New York, Nov. 1.—President Wilson was urged to call a special session of Congress at an early date to declare war on Austria in a resolution adopted by the trustees of the American Defense Society at a special meeting here yesterday.

The resolution further urges the transportation to Italy of a contingent of American troops and war material, using all ships possible, including seized Austrian ships. It sets forth that "the complete defeat of Italy's armies will endanger her national existence and imperil the issue of the war for democracy."

A copy of the resolution was telegraphed to President Wilson. The resolution declares that "German agents throughout Italy have steadily emphasized the fact that the United States has never yet seen fit to declare war against Austria-Hungary, Italy's great and neighboring enemy."

The sending of an "overwhelming force" to France, because, it says, "the man men we send the fewer will be slain," is counseled in the minute, which declares that, considering the population of more than 100,000,000 would be no more than this country's proportionate share.

The minute urges that Congress at its next session be asked to declare that a state of war exists also between the United States and Bulgaria and Turkey.
