POOR BOARD BAD HUNTING GROUND

[Continued from First Page.] badly snarled condition and it is said the retiring clerk was so woefully out of touch with his own accounting "system" that he was ready and willing to accept the balance struck by the county controller and make a little effort to reach a balance for himself.

The incoming Republican directors found hundreds of heads of cabbage frozen and wadded in his private adjoining the county home, certain of the apartments filthy beyond description, much meat utterly spoiled, sickening odors pervading the place and the moral inmates very bad indeed. Radical reforms were instituted and it is beyond the understanding of Republicans why the Democratic bosses should be stirring up this stench against their own party.

Pass Is Popular

Charles E. Pass, the Republican candidate for prothonotary, is the man under attack and he is being lead over his Democratic opponent that the object in centering the campaign on him is difficult to see. Pass was elected poor director by the county voters and was in a candidate for the office up to that time and he is well known all over the county, being one of the county's most popular public speakers. His friends predict that he will carry both city and county by majorities that will approach his big vote for poor director.
