

GREAT CHANGES DUE TO THE WAR

Reserve Board Member Warns Against Inflation; Requires All Economic Resources

Philadelphia, Nov. 3.—With a warning that inflation already had begun, A. C. Miller, member of the Philadelphia Federal Reserve Board, told the National Conference on Financing the War here to-day, that American business must not undertake to carry the war as an "extra" but must exercise the vision and imagination necessary to see the great changes in economic organization essential to victory.

Mr. Miller pointed to the increase in federal reserve bank investments in evidence of the existence of inflation, partially responsible for the rise in commodity prices since the United States went to war and declared that if this increase continued it was not unreasonable to expect that before long the reserve system would be made into a great engine of banking inflation. He explained the process by which enormous inflation has been caused in Germany and France through government borrowing from the banks and added:

Whether a similar result is to be expected here in connection with our greater government borrowings, and on whether all the people who have income enough to save will save, or whether they can or will be made to save enough out of their incomes to absorb such loans of the government as may be put out in excess of the current savings fund of the nation."

Fire Damages Foundry at Swab Works, Elizabethtown

Elizabethtown, Pa., Nov. 3.—A fire broke out in the large foundry shop of the Swab Works company in Franklin street last night from a cause unknown, burning the molding department of the building. But for the fact that this part of the building was built of brick and the prompt arrival of the local fire company, the whole building would probably have burned to the ground. The large loss is covered with insurance. The members of the hose company are being highly complimented for their promptness and hard-fought efforts.

DEMOCRATS MEET

Members of the Harrisburg Democratic Association met in the Board of Trade Hall last night to endorse the Democratic ticket. The principal address was made by Charles H. B. Stuber, chairman of the party. Other speakers were County Chairman George W. MacWilliams, Charles F. Spicer, Peter Vanderloft, Edward C. Cooper, and J. Herbert J. Landis Strickler and A. C. Young.

REMOVE BODY

The body of Burton Broadus, who was murdered in South Front street, Wednesday night, was sent to his home in Spottsylvania, Va. The Broadus family was here yesterday and made arrangements for the removal of the body. No time has been set for the hearing on the charge of suspicion, pending the hearing.

Opens Up Clogged Nostrils, Vanishes Cold in Head and Catarrh Like Magic

CAMPHORELE soothes and relieves catarrhal deafness, and head noises. It drives out congestion without apparatus, inhalants, lotions, harmful drugs, smoke or electricity. Do not treat your cold lightly; this is pneumonia season. If you have cold in head, pain in chest or sore throat, send to nearest drug store for a jar of CAMPHORELE, and watch how quickly it will relieve you.

War Tax Ruling

The war tax on railroad tickets and other forms of transportation will not apply to expenditures for traveling on state business, according to a statement made to-day by Chairman Ainey, of the Public Service Commission. Mr. Ainey said that he had taken up the matter with railroad companies and that pending action by the Federal government prescribing forms the railroad companies had agreed to accept certificates signed by the head of a department of the government and presented to each company for its transportation. The commission is operating under a certificate prepared by the chairman and already printed. This has been communicated to other departments.

BILLFROGS GO BY THOUSANDS

State Has "Planted" Over Half a Million in Streams and Ponds This Year

Half a million young bullfrogs, all raised in the state's fish hatcheries, have been planted in streams and ponds and brooks of Pennsylvania this year by the Department of Fisheries. The distribution of young frogs was on a scale never attempted before and the greater part of the work was in charge of men who had volunteered to see that waters in their neighborhoods were stocked and who agreed to make reports on the way the frogs stood the trip and how they took to the water.

Commissioner of Fisheries N. R. Buller in making the estimate of half a million frogs distributed said that he did so from wardens' reports and would not be surprised if the total went above half a million. "We started propagating frogs in response to many requests, including many from farmers and the work has passed the experimental stage," said the commissioner. The planting of frogs will continue as long as weather permits.

Compensation Ruling

The State Compensation Board has dismissed the appeal in the case of Forbes vs. Central Railway of New Jersey, an Allentown case, in which the attention of the department was called to certain matters alleged in the answer of the defendant which were overlooked when the opinion was written. The decision makes the comment that while it may be that both parties were misled in the inter-state commerce record discloses no offer of any such record were entered into the file with the board at the time of the argument by the defendant to the effect that the record were entered into the file with the board are not part of the record and can not be considered on appeal as evidence.

STEELTON AND NEARBY TOWNS PLAN Y. M. C. A.

WAR FUND WORK OFFICIALS URGE VOTES TO ENDORSE LOAN TRANSFERAL

Send Letter to Firemen Requesting Them to Wipe Out Opposition to Passing the Resolution Evident in Some Sections of the Town

"Shall the sum of Twelve Thousand (\$12,000) dollars heretofore borrowed by the Borough of Steelton for the purpose of an isolation hospital building including cost of site and appurtenances in which to take care of persons suffering from contagious diseases, be used by the said borough for the purpose of purchasing motor trucks and garage in which to house same, and pay for permanent repairs to borough fire department houses?"

The several counties of the commonwealth, to be constructed and maintained out of the county funds," authorized Dauphin county to erect a contagious disease hospital at the expense of the county funds, making a Steelton isolation hospital unnecessary.

The transfer of this money has been endorsed by the large percentage of the businessmen of the borough. When it had first been suggested borough officials ask the opinions of businessmen and found that they all favored this change.

The matter of transferring this money was made possible by a special act of the Legislature. Important That It Passes

T. J. Kelly, president of council, said to-day that if this matter is defeated it will be necessary to raise the tax rate in Steelton considerably and in addition pay interest on this money which has been laying idle for four years. This number has been paying an interest of a cent and one-half on this amount.

The voters gave their permission to use \$25,000 to purchase six pieces of apparatus. When the apparatus was purchased council members thought it would be a good plan to purchase the entire department and purchase six pieces at the cost of \$27,000. In addition \$2,800 is added to this to purchase a garage truck.

Improvements Necessary The installation of apparatus makes improvements at all the fire houses necessary and also purchasing more equipment. The money supplied by this loan, councilmen claim will just about pay for these improvements and the additional cost of the apparatus.
