Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

IF YOU HAD A NECK AS LONG AS THIS FELLOW, AND HAD SORE THROAT ALL THE WAY DOWN TONSILINE WOULD QUICKLY RELIEVE IT.

Why

Go Away With Printing

It would be folly to send to a distant city for water when it is here in abundance; it would be unwise to suffer delay and inconvenience in an effort to procure any commodity that is yours by the simple reaching out and taking hold. From a slightly differing view-point it is also true that you invite delay and disappointment, with no saving in money-value by going out of town with your printing. It has been proved so often that wise business men save postage, telegraph or telephone tolls and are able to keep in personal touch with their order.
