

RUSSIA DOING HER UTMOST TO CARRY ON WAR

Only One Inference to Be Gained From Premier Kerensky's Interview

Petrograd, Nov. 6.—Russia is still doing the utmost to carry on the war. She will continue to do her duty. These are the views of Premier Kerensky, whose secretary, in his name, protested against any other interpretation of his recent interview with the Associated Press.

David Hostetler, the Premier's secretary, made the following statement to-day regarding "the misinterpretation by some of the London press" of the interview.

"I have seen M. Kerensky with reference to the interview and shown him quotations from the English press. He was very much astonished at the manner in which his plain statements were received in London.

Whoever read the whole interview can draw but one conclusion from it: Russia was doing, is doing, and still will do her utmost in carrying on her share of the common cause against the enemy, having no intention of withdrawing from the very first days of the war, when England only began her vast preparations and America was still neutral.

Russia, which always was much stronger numerically than her mighty allies now naturally feels the pinch of war more than England and America and, therefore, is justified in the contention that her allies now should shoulder the heavy burden, and should assist her unflinchingly with war material and finances, in the matter of her requirements.

"The minister-president in this interview pointed out that not only one of the allied countries appreciated fairly the great part Russia has played and still is playing in the war, and that some were inclined to attack her bitterly because of the great difficulties with which she is confronted now. She will continue to do her duty."

M. Sockice said the interpretations of the American press of his interview were pleasing to him.

**PASS ON MILITARY APPEALS**  
The District Appeal Board this morning considered the appeals from the agricultural claims of the second Chambersburg and the second York districts. The appeals were all cases disposed of by the board to-day.

**BURNED AT WORK**  
Otto Fox, 55, 1120 Green street, who is fireman at the Iron and Steel Company plant, had his right arm and face burned while at work yesterday. He was taken to the Harrisburg Hospital for treatment.

**SPINE IS INJURED**  
G. W. Brubaker, West Fairview, when he was mending a car spring while at work at New Cumberland, yesterday. He is employed at the place of the accident, as a car repairman. He was taken to the Harrisburg Hospital for treatment.

**JAW BROKEN**  
Charles Morehead, a brakeman for the Pennsylvania Railroad, was taken to the Harrisburg Hospital with a fractured jaw. It was alleged that he had been struck during a fight.

SOLDIER VOTE MAY DETERMINE RESULT IN N. Y.

All Parties Claiming Victory in Campaign Unparalleled For Bitterness

New York, Nov. 6.—New York is holding its quadrennial majority election to-day. Of the 696,809 voters who registered, it was expected that at least 675,000 would cast their ballots.

Many close political observers believe the result may hinge upon the vote of men now stationed in training camps in this state and overseas. The soldier-sailor vote has been estimated at about 50,000, and it will be about a month before it is known how these men voted.

At the close of a campaign almost unparalleled for its bitterness and many sensational charges and counter charges, campaign managers of the four parties issued statements claiming victory. The fusion party predicted that Mayor John Purroy Mitchell would be re-elected by a plurality of at least 50,000; Tammany Hall claimed that County Judge John F. Hyland, Democrat, would be elected by 70,000 plurality; former State Senator William M. Bennett, the Republican nominee, who defeated Mayor Mitchell at the primaries, asserted he would get 275,000 votes, and Morris Hillquit, the wealthy candidate of the Socialist party, was certain that he would poll 230,000.

While the main interest in the election was centered in the majority, the question of granting suffrage to women by amendment to the state constitution attracted unusual attention. Four women, all Socialists, are candidates for seats in the Lower House at Albany.

**350 ORDERS FOR ARRESTS**  
Seven hours after the polls opened to-day in the majority election here it was estimated that from one-half to two-thirds of all the ballots had been cast. The voting was noticeably heavy in districts where the Socialist strength had been conceded.

The election was proceeding quietly, with a few incidents of disorder on the street side. During the forenoon there were 350 orders for arrest for alleged fraudulent registration, and warrants for 250 more persons were prepared at the request of the State Superintendent of Elections.

**American Party Arrayed Against Pacifists and Pro-Germans in Reading**

Reading, Pa., Nov. 6.—Democrats and Republicans under the name of the American Party are arrayed in to-day's election here against the Socialists in a hot fight for four councilmen. The Socialists, it is claimed, have the support of pro-Germans, pacifists, People's Council members and anticensorship workers. The American party is making a fight on the question as to whether the American flag or the red flag shall be victorious.

PENN-HARRIS HOTEL IS GOING UP AT RATE OF STORY A WEEK

THE PENN-HARRIS HOTEL is going up at the rate of a story a week, under the supervision of E. A. Johnson, general superintendent for Nelson and Lewin, the contractors. Thirty carpenters and fifty laborers are employed on the job, aside from the force of roofers, plumbers and electricians. The National Fireproofing Company, with Edward Montour as superintendent, has charge of the framing and concrete work, and the fourth-floor framing will be completed and poured Friday night. The second or lobby, the lounge and dining rooms and the third or mezzanine floors are completed so far as the concrete and most of the other preliminary work is concerned. The steam heating, plumbing, electrical and other contractors are following closely the concrete workers. Thomas Bailey is superintendent for G. A. Nelson, the plumbing contractor, and R. E. Hawes, engineer, represents W. L. Stoddart, architect. The concrete tower will go to twice its present height above the construction work.

Y. W. C. A. HELPS WOMEN IN WAR; RAISE NEEDED FUND FOR WORK

"Hostess Houses" Established at Training Camps Aid For Girls Engaged in New Industries

FROM establishing cafeterias in Russia to looking after the foreign wife of the drafted soldier in New York's east side, the War Work Council of the Young Women's Christian Association is finding varied and diverse work to do for the women affected by the war. The work has already received an appropriation of \$4,000,000. It is so diverse that wherever and in whatever way the war touches the lives of women there goes the War Work Council.

The "hostess houses" established at training camps form only one small part of the field covered by the council even in America. The work includes looking after the eating and sleeping arrangements, for example, of thousands of girls suddenly employed in the war's mushroom industries. It is also helping the women of France, and it supervises recreation for girls in the vicinity of the cantonments.

For the task of housing and feeding hundreds of women suddenly summoned to work in great industrial cities that have sprung up overnight, the association has appropriated twenty-five million dollars. When the government suddenly calls for a score or more of women to go to work at once in a laundry, on uniforms, in a munition factory, or in any other possible to supply them at once with a place to eat and sleep. But, since eat and sleep they must, immediately the War Work Council is plunging into the business of supplying them with suitable living quarters and with food. This has been a tremendous problem in England. It promises soon to be equally gigantic here.

Then there is the assistance which the council stands ready to give to foreign women whose husbands and sons have gone to war. Many of these women have lived in America in practical isolation from the American world, depending upon their menfolk as intermediaries between them and the strange new country that has remained new, of whose customs they are ignorant, and whose language they have never learned. In this field the Y. W. C. A. has decided to use \$100,000. There is a special bureau for the work. Eight branch bureaus are already in operation, under Mrs. Henry M. Bremer.

One of the interesting phases of the foreign work is being begun in Russia. The problem is almost entirely one of food. There are thousands of Russian women who need to be fed, cheaply, properly, efficiently. In France a large group of Y. W. C. A. workers are already busy, more are on their way, others are just about to sail, and constant requests for more are being received. The committee is under the chairmanship of Mrs. John R. Mott.

The officers of the War Work Council of the National Board of the Young Women's Christian Association—to give it its full title—are: Chairman, Mrs. James S. Cushman, of New York; vice-chairman, Mrs. Frank Wherry, of Montclair, and Mrs. John Meigs, of Pottstown, Pa.; treasurer, Mrs. Henry P. Davison, of New York; secretary pro tem, Mrs. Edward Massey, of Port Jervis. The council plans to spend its \$4,000,000 appropriation before next June.

Root, T. R. and Wood Not to Go to Paris

Washington, Nov. 6.—Col. Theodore Roosevelt, Elihu Root and Major Gen. Wood will not represent the United States at the Allied conference soon to be held in Paris. This was made clear to-day by Secretary of State Lansing, when his attention was called to a statement issued by former Senator Jonathan Bourne, Jr., of Oregon, Director of the Republican Publicity Committee, that as an evidence that there is no politics in the war these men should be made members of the United States delegation.

COAL SECURED FOR PIPE BENDING CO.

[Continued from First Page.] holder gets a fair supply and that the shortage does not develop into a famine because of certain persons getting too much. Delivery Costly M. R. Miller, sales manager for the United Ice and Coal Company, to-day issued the following statement on the practice of selling in quarter-ton lots: "In justice to coal dealers we wish to say that it is very foolish to conclude that coal dealers prefer selling coal in quarter-ton lots instead of one-ton at each delivery. Not including overhead charges, the expense to-day for taking one

ton of coal from the dealer's yard and putting in a customer's cellar much exceeds one dollar per ton. "The amount of time consumed for the delivery of one-quarter of a ton is the same as when one ton is hauled. Necessarily it takes four trips in quarter-ton lots to equal one ton of coal so that the expense for the delivery of one ton of coal in quarter-ton portions is four times the cost of the service when a full load is sent. "Coal dealers lose considerable money on quarter-ton lots of coal. Should the cost of doing business further increase the quarter-ton service may be discontinued. "Coal consumers are always advised against buying in smaller amounts than one ton of coal because of the extra expense. However, many persons prefer to buy in minimum quantities rather than in larger amounts and at a saving to them. "The net profit on the sale of one ton of coal is twenty-five cents. Whenever it is necessary to make four trips to aggregate one ton, the actual money loss is many times twenty-five cents." FERDINAND WILLIAMS Ferdinand Williams, 82, died at the Masonic Home, Langestown, Saturday morning. His body was taken to Philadelphia yesterday, where services will be held Wednesday. JOHN MITCHELL John Mitchell, 1342 North Seventh street, died Monday evening. Funeral services will be held to-morrow afternoon at 2 o'clock, from the undertaking parlors of W. J. Hooper. Burial will be made in the Lincoln Cemetery.

"Harrisburg's Exclusive Woman's Shop" **Astrich's** 308 Market Street **A Sale of Millinery Trimmings** The Greatest of the Season A special purchase made from one of New York's largest importers, who is moving his store, and who gave us an opportunity to select from his stock a host of the choicest, newest Winter Trimming at a special price concession, is responsible for this great event. The merchandise we bought is only the best and most desirable trimming so greatly in demand NOW and you will find the prices the most attractive ever offered by any Millinery Store in the very height of the season. **Wheatless Wednesday** Wheat is the grain that is in universal demand the world over, and in times of war must be conserved as the principle food product of our allied forces. Complying with the request of the Food Commission we will serve you a bread or other wheat on Wednesdays, except such as is absolutely necessary in certain formulas where a little wheat flour must combine with other ingredients. But if you wish to see how many substitutes for wheat there are of equal nourishment and as tasty in flavor, try a lunch to-morrow at **DAVENPORT'S** "Architects of Appetites" 325 Market Street
