WAR PROBLEMS TO CLAIM ATTENTION

State Board of Education Will Have Important Meeting Here Next Week

Members of the State Board of Education have summoned for a special meeting to be held here next Wednesday, November 14, for discussion of war problems in the schools and the normal school situation.

The members of the Board have been making observations on conditions throughout the state brought on by the war and its stimulation of certain industries and also the effect of advancing prices for supplies. In many parts of the state there has been reported a shortage of teachers due to men going into the Army, being drafted or transferring their activities to better paid occupations, while women are also making changes.

Reports will be discussed on the inquiry into the extent which physical training has been taken up in the schools of the state and the investigation into the number of savings funds in school districts.

Work Stopped—It is estimated that work on twenty-six miles of road maintenance has been hit by the Government's priority order on open-top cars.

PETROGRAD POPULACE IS IN STATE OF REVOLT

[Continued from First Page.]

The situation is complicated further by the action of Premier Kerensky in suspending three Maximalist and two Conservative newspapers. The city authorities last night ordered a disconnection of the bridges between the quarters of the city inhabited by the working classes and the center of the capital, thus stopping the tramways.

In addressing the preliminary parliament to-day Premier Kerensky charged the military committee of the Soldiers' and Workmen's Delegates with having distributed arms and ammunition to workmen.

"That is why I consider part of the population of Petrograd in a state of revolt," he said, "and have ordered an immediate inquiry and such arrests as are necessary. The government will perish rather than cease to defend the honor, security and independence of the state."

The government has decided not to resort to armed force for the present against the military committee of the Soldiers' and Workmen's Delegates, but has ordered the ministry of justice to prosecute the members of the committee. The military will take the necessary measures in case of a revolt.

The revolutionary military committee of the Soldiers and Workmen's Delegates demanded the general staff in the Petrograd districts, which was refused. Thereupon the committee announced that it had appointed special commissioners to undertake the direction of the military and invited the troops to observe only orders signed by the committee. Machine gun detachments moved to the Soldiers' and Workmen's headquarters.

The government hopes for a peaceful settlement of the dispute on which action it reached the decision not to resort to force for the present. However, the Soldiers' and Workmen's committee was decreed an illegal organization and precautionary steps were taken to prevent any attempts at a revolt.
