UNCLE SAM HAS 2,000,000 MEN READY FOR WAR

Army Already Greater in Number Than That of Civil War

Washington, Nov. 7.—Official figures obtained from Army and Navy chiefs show that the United States to-day has more than 2,000,000 men under arms in its fighting branches. Heavy enlistments to the Army. Navy and Marine Corps during the last few days have increased the total over the 2,000,000 mark.

The second draft call, which may come before the new year is ushered in, will increase the total to 2,500,000, exclusive of the thousands enlisting in the next two months.

These figures were given out as an answer to the sneering remarks of German officials and press of Uncle Sam's "inconsequental army."

By way of emphasis in showing how well officials regard the success of the nation in raising this army in the six months since war was declared, it is pointed out that all but 687.

000 of this total, or the first draft contingent, approximately 1,400,000, represent voluntary enlistments.

A remark dropped by Secretary Baker to-day indicates that the United States will soon reply to those sneering German prophecies that the United States cannot take part in the war any greater than that Rumania has taken.

Germans Soon Will Know

Germans Soon Will Know
Secretary Baker was asked if, in
view of the fact that the Germans
have raided American trenches, it
would not be proper to divulge the
particular sector occupied by the
American troops and the direct point
of contact with the Germans.
"The Germans will know the point
of contact when we hit them," said
Secretary Baker.
Here are the figures on the strength
of the American fighting forces, including officers and men:
National Army 616,820
National Guard 469,000

National Guard	. 469,00
Regular Army	. 370,00
Special branches	200,00
Reserves	. 80,00
Total	. 1,735,82
Navy	. 171,01
Naval Reserves	50,00
Naval Militia	. 15,00
Marine Corps	32,00
Coast Guard	0 = 0
Hospital Corps	
All officers	. 10,40

Total ... 271,571
This makes the grand total of the two services 2,006,391.
The figures for the Navy are the accurate figures shown by the last report received at the Navy Department. The figures for the Regular Army, National Army and National Guard are as near as the War Department can compute them, owing to the shifting of men to and from camps.

KEISTER WINS FOR MAYOR, IT IS BELIEVED

[Continued from First Page.]

Charles E. Pass had very little opposition for Prothonotary, the interest in the county ticket centered in the drive made on Coroner Jacob Eckinger. Mr. Eckinger was opposed by Dr. G. Willis Hartman and for a time it looked as though Eckinger had been defeated. With returns practically complete this afternoon, however, those who were in charge or returns at the courthouse, gave it as their opinion that the Coroner had been re-elected by a majority of about 150. With only Rush township to hear from, the returns, un-

as their opinion that the Coroner had been re-elected by a majority of about 150. With only Rush township to hear from the returns, unofficial, stood: Eckinger, 10,143; Hartman, 10,070.

To these figures must be added 81 votes for Eckinger, Senator Beidleman having received a telegraphic message at noon from Camp Meade, saying that Eckinger had carried the camp vote by 81.

A Republican Sweep

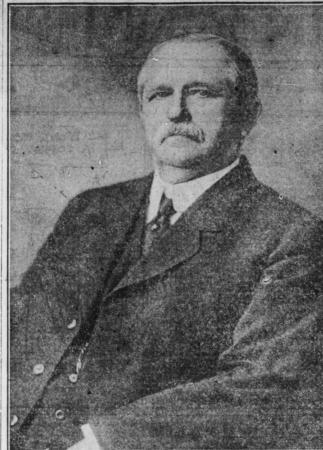

Both city and county yesterday gave overwhelmingly Republican majorities. Not a tingle Democratic candidate was elected for any office of importance and very few for any office whatsoever. This is attributable to several reasons, first, the normally strong Republican candidates and finally, the character of the Republican candidates and finally, the chameful manner in which the local Democratic bosses forsook the candidates of that party The usual "barrel" was missing and there was much resentment to-day among Democratic ward workers and those who had been sacrificed to make a Republican holiday over the lack of interest displayed by those who got control of the machine in other years and who are now so deeply interested in state and national politics where the limelight is not so expensive this year. Yesterday's behavior on the part of these self-constituted leaders will likely cost the Democratic party in Dauphin county hundreds of votes in the gubernatorial contest next year. Republican housekeeping in Dauphin county hundreds of votes in the gubernatorial contest next year. Republican candidates so generally high that the men backed by the local organization this year found the ground very well prepared for them and the voters well satisfied with conditions. For this reason it was unnecessary to arouse sentiment by meetings throughout the county, in almost all districts the workers and voters alike expressing themselves as willing to take the nominees at face value.

Fusion Ticket Wins Over Socialists in Chicago

By Associated Press
Chicago, Nov. 7.—Democrats and Kepublicans in Chicago and Cook coun-

Re-elected Judge of Dauphin County Courts

WEDNESDAY EVENING,

Judge McCarrell was re-elected judge of the courts of Dauphin output by a unanimous vote, having had no opposition either at the pri-marles or the general elections.

ty to-day expressed gratification at the results of the judicial election yesterday in which a fusion ticket of carrying seven candidates from each of these parties was swept into office over Socialist and Independent tickets by a plurality of approximately 75,000 out of a total vote of 244,913. The election was held to choose twelve judges of the superior court and two judges of the circuit court. In the contest for superior court judges, Seymour Stedman polled the largest Socialist vote, receiving 72-117. M. L. McKinley led the Fusionists with a total of 140,074. The Socialists carried six out of the thirty-five wards in Chicago.

Democrats Poll Small Vote in City of Boston

Boston, Nov. 7.—The small Demo-cratic vote in Boston was one of the most marked features of the election 200,000 in Special Branches

The figures of 200,000 given for special branches is a conservative estimate. It includes the special engineer regiments, numbering well into the thousands, the quartermaster corps, the medical corps and the aviators. Thousands of men from these special branches are now in France with Pershins. Others are being assigned to training camps where special organizations are being filled.

The army of more than 1,500,00 in the three fighting branches, the Regulors, National Army and National Guard, is the largest ever assembled in the history of the nation, officials pointed out to-day.

The high-water mark of the federal strength during the Civil Warwas 2,700,000, but this was only paper strength. It counted hundreds of thousands of three months' and six months' enlistments, so that officials are convinced that at no time was there as large an army as the United States now has under arms.
