Requests Interstate Commerce Commission to Take Action to Help the Railroads

The Pennsylvania State Chamber of Commerce has forwarded to Washington the following petition requesting the Interstate Commerce Commission to grant the railroads an increase in freight rates:

November, 1917. Interstate Commerce Commission, Washington, D. C. Gentlemen—The Pennsylvania State Chamber of Commerce most earnestly requests the Interstate Commerce Commission to grant to the railroads in Pennsylvania a reasonable increase in freight rates over existing tariffs.

It is generally felt by the business community that the railroads have not had sufficient revenue to keep pace with the growth of the industries of the country in providing transportation facilities.

FRENCH HONOR FIRST GUN FIRED BY U. S. UNIT

Children Place Wreath of Flowers on Grim Barrel of "Gun For Germans"

With the American Army in France, Wednesday Nov. 7.—The first American artillery unit to establish contact with the Germans came back to its billets today. The men were tired and muddy but still an enthusiastic lot of soldiers as ever came out of gun pits.

The "Gun for Germans" was one that will long be remembered in this section of France. It was late in the day when long lines of marching soldiers and straining horses were seen rounding a small mountain many miles away.

Below them stood a group of hill-tops. The rain was beating in their faces and a village nestled in a valley came into their view as they crossed the crest of the hill.

The entire command was immediately drawn up in a hillside and a gun, covered with camouflage paint was drawn out in front. On the gun shield an artilleryman had written in chalk: "The first gun for the Germans."

That was all the ceremony but the sight of Americans returning from combat with the Germans, cheered the populace of the village so that when the troops disappeared many old men and many women came out to put their arms affectionately around the shoulders.

In this command there was not a single casualty. After a short rest the contingent will be sent to other camps for instruction work.

Official Count Necessary As it is an official count is more than likely to intervene before the final announcement is made of just what the vote stands on prohibition. Wets and dries alike talked of the need of an actual recount before any final count is made.

ARMISTICE PROPOSED BY NEW LEADERS [Continued from First Page.] democracy: First, immediate conclusion of the war; second, a peace treaty; second, the handing over of the land to the peasants; third, settlement of the national debt.

At the close of the sitting a declaration was read from the representatives of the Democratic-Maximalist party of the Soldiers and Workmen's Delegates, stating that the party disapproved of the coup d'etat and withdrew from the council of soldiers and workmen's delegates.

An Exchange Telegraph dispatch from Petrograd says a strong detachment of troops from the Soldiers and Workmen's Delegates occupied the Baltic railway station and that the government commandeered all motorcars, confining the troops to the barracks.

Kerensky Deposed A proclamation sent out through the wireless stations of the Russian government today and picked up here states that the garrison and proletariat of Petrograd had deposed the Kerensky government.

It first sprang into prominence in the early days of the revolution under the leadership of Vladimir Lenin, a radical agitator who later was put under the ban of the provisional government because of ultraradical preachments and his suspected pro-German leanings. It is known to have been in Petrograd for some time past, however, but a government order for his arrest failed to result in his apprehension.

While the Maximalists were under the leadership of his chief lieutenant, Leon Trotsky, whose home was in the United States, the Maximalists broke out but who called for Russia shortly afterward. He was one of the leaders in the 1905 revolution.
