STEELTON GAME MAY BE LAST Refusal on Part of Coach George Cockill to Change Officials the Cause

To-day's game at Steelton, between Tech and Steelton High, may end athletic relations between these two schools, it was up to the Central Board of Referees to get men who would be satisfactory.

Blame Cockill Tech officials are blaming only George Cockill and regret that he controls the situation. They have only warm words of praise for Prof. Davis and Steelton's faculty, and feel that they are powerless except to do their best in preventing an outbreak.

Waltz, who has been selected for referee is from Pottsville. It is said he never played and if nothing could be done as to referee, ample police protection was assured.

WELLY'S CORNER

Coach George Cockill, according to reports, will be responsible for any trouble that may happen at Steelton today. His refusal to guarantee satisfactory officials, is taken as an indication that he proposes to win today's game at any cost.

Reading pulled one over on Harrisburg in planning for the opening of the live bird shooting season. The big match next Saturday at Reading will bring together many crack wing shots. Harrisburg will have a shoot later on. The big event of course will not take place until February 22.

According to reports, rabbits have been getting scarce. Hunters say that up to the present time more rabbits have been killed this season than during any previous year. Birds have been scarce for some time, and few big bags have been reported in this vicinity.

With Frank Peters looking after the gymnastic work at the P. R. R. Y. M. C. A., interest in various sports is on the increase at that institution. He will have some promising young material to look after.
