

KERENSKY IS IN RETREAT AFTER BATTLE IN PETROGRAD

Severe Fighting Marks Progress of Contending Factions; Bolsheviks Throws Up Barricades

MAXIMALISTS SUCCEED IN HOLDING CAPITAL

Rebels Meet Revolutionary Forces and Bring About Complete Defeat; Price Set on Kerensky's Head

London, Nov. 13.—The complete defeat of Premier Kerensky and General Korniloff is announced in a Russian communication received here by wireless. The announcement follows: "Yesterday after bitter fighting near Tsarsko-Selo the revolutionary army completely defeated the counter-revolutionary forces of Kerensky and Korniloff. In the name of the revolutionary government I order opposition to all enemies of the revolutionary democracy and the taking of all measures necessary to effect the capture of Kerensky. I also forbid similar adventures which are endangering the success of the revolution and the triumph of the revolutionary army."

(Signed) MOURAVIEFF, "Commander-in-chief of the forces acting against Kerensky."

The communication goes on to say that history will record the night of November 12. "The attempt of Kerensky to move counter-revolutionary forces against the capital of the revolution has received a decisive reply," it adds. "Kerensky is retreating and we are taking the offensive. The soldiers and workmen in Petrograd know how to impose and will impose with arms in their hands their will and the power of the democracy. The Bourgeoisie has endeavored to separate the army from the revolution. Kerensky has attempted to break it by the violence of Cossackdom. His efforts have failed. The workers and peasants' great conception of the supremacy of the democracy has united the ranks of the army and has steeled its will. The whole country will see that the authority of the soldiers and workmen's delegates is not a passing phrase but is an unchangeable fact, denoting the supremacy of the workmen, soldiers and peasants."

Statements by Cannon; Withhold Other Comment

Petrograd, Nov. 13.—Leon Trotsky, principal aid of Nicholas Lenine, yesterday replied to a request from the Associated Press for his views on the situation as follows: "I may say that we are making all our statements now by means of cannon. I have nothing to say otherwise."

Premier Kerensky is reported living in the palace at Gatchina. The Bolshevik leaders appear to be confident of the support of the army.

ITALIAN VICTORY CERTAIN, BELIEF OF LLOYD GEORGE

Result Not in Doubt no Matter What May Happen in Russian Affairs

UNITY IS AN ESSENTIAL

Austro-German Forces Have Failed in Strong Attack on Italian Positions

By Associated Press

With the Italian armies in position along the Piave from Feltre to the Adriatic and from the Piave west to the Sette Comuni, the Austro-German drive through Northern Italy has lost most of its momentum. The invaders have failed in strong attacks against Italian positions. Northeast of Asiago and along the Piave there have been only artillery duels.

North of Feltre the Austro-Germans have captured 14,000 Italians, who apparently were cut off in their attempt to reach the new defense positions. The Italians, aided by the French and British, are prepared to give battle to the invaders and heavy fighting is not unexpected.

The Italian reverse has caused Premier Lloyd George of Great Britain and Painleve, of France, both ministers of war, to declare for solidarity of the allied command and efforts on the battlefields of Europe. The reverses of the past three years, Premier Lloyd George said, had made it necessary that the leadership be united and that the allies be united. Victory will come from unity of action, no matter what may happen to Russia or in Russia, the British leader declared.

Measures Taken to Protect Venice, Famous Art Center

By Associated Press

Italian Headquarters in Northern Italy, Monday, Nov. 12.—A heavy and continuous bombardment is proceeding along the Piave river, marking the opening stages of extensive operations on this new line. The engagements thus far have consisted of the Austro-Germans, although the shelling extends almost uninterruptedly for forty miles along the lower Piave. The Austro-Germans have been in the line since the morning of Nov. 11, now heard, showing that the Austrians and Germans have been able to bring up a few of these monster pieces.

Secret is no longer made of the fact that the Piave is the line of defense to which the supreme command has been bending its energies steadily for the last two days. The upper end of this line joins the Trentino front, making virtually one unified front, sweeping in a huge arc from Lake Garda to the mouth of Piave near Venice.

Precautionary measures to protect Venice continue, lest the enemy whose long-range guns are not far off, should attempt to bombard the famous art center. The palace of the Doges has been covered with sand-bags and the delicate and valuable has been shored with heavy timbers. The Campanile has sandbags for forty feet around the base. The Grand Canal and gondolas, which are being used for transportation purposes.

Exodus From Venice; Paintings Sent to Florence

By Associated Press

Italian Headquarters, Nov. 13.—For several days the gravity of the situation for Venice has not been underestimated, and suitable precautionary measures have been taken to protect this great art center. The city preserves comparative calm, while picturesque gondolas, filled with passengers and goods, take departing throngs to the station. The distance to those who are leaving and is allowing two lire daily (normally forty cents) to the needy until they are located elsewhere.

The government is keenly alive to the situation as regards the artistic treasures of the city, and military and naval operations doubtless would be considered secondary to saving priceless monuments like the Campanile, the Palace of the Doges and St. Mark's from bombardment. All the chief paintings of Titian and Paolo Veronese have been removed to Florence, but scores of great frescoes cannot be taken away.

Plymouth, England, Nov. 13.—Sir Auckland C. Geddes, minister of national service, in a speech here yesterday said the people must prepare for a sterner trial than any that had yet been faced. The war would drift into 1920 and after, if the people did not pull themselves together for the mightiest effort in the nation's history, he said.

"Victory," said Sir Auckland, "depended upon a great up-rush of human energy, generated by the people in their determination to win. The government should not be asked to drive them."

FLAT FEET FINALLY GETS TANGO MAN OUT OF ARMY

The district appeal board sitting at the Capitol got word this morning that Charles Briner, who was sent to camp after a strenuous time before one of the Cumberland county draft boards, which refused to recognize his claims, had finally achieved his heart's desire—exemption. Charles had been in the army for a year, and was recognized by Mr. LaRue, of York county.

When first hailed in the draft the Cumberland county board heard that Charles was the tango king of Broadway and there was a plea that his services in teaching the tango were

so important that the Army should let him stay back here, for who in the world would want tango lessons over in the trenches. A second plea identified Charles with chronic "nerve-woneness" which it was surely thought, would get him off the board had hearts of flint, held him for service and sent him to a southern camp. A couple days ago, the word has just reached here, an Army surgeon's examination of Charles developed that he has "flat feet," caused possibly by constant tripping of the feet in the tango. Charles is back in his home in Cumberland county, flat-footed but happy.

CADETS DISPLAY GREAT BRAVERY IN PETROGRAD

The military cadets were prompted to undertake the adventure in the belief that Premier Kerensky was on hand with his army and was on the point of retaking the city. They numbered not more than sixty and had but a small supply of ammunition.

Three to Two Vote Comes on Amendment to Trolley Tracks Ordinance

For the first time since the present City Council organized two years ago members could not agree on a measure before it for final passage, and a 3 to 2 vote carried the legislation which has been pending for several weeks.

Commissioners Gorgas and Dunkle favored the amendment, the former introducing it and the latter seconding the action. Fifty Girls Would Compete With Boy Messengers

That girl messengers are an unqualified success is the verdict pronounced by Clark E. Diehl, local manager of the Postal Telegraph Company. There are three girls on duty now, all of whom say they are greatly pleased with their jobs. The girls are Marian McAfee, Frances Davis and Miss Crosby. The first girl is from Fairview, the last two from the city.

One of the noticeable features of the girl messenger service is that the girls have stimulated the boys and men, Mr. Diehl said to-day. The girls are at their places promptly, and are prompt in their services, and the men are following their example. Mr. Diehl has a long waiting list of girl applicants already, and states that he could secure fifty girls if he wished.

Bok, editor of the Ladies' Home Journal, spoke to them at the opening of the great campaign to better conditions for our soldiers and sailors.

"I come to you not as a trained after-dinner speaker," said Mr. Bok, "but as a plain businessman, speaking from a business man's standpoint. If anyone had told me, a year ago, that I should be campaigning for the Y. M. C. A. I should have thought it absurd. I had the idea, as many others of you have, that the Young Men's Christian Association represented a certain piety which many of us dislike. But I found that this new Y. M. C. A. work was a two-fold proposition. "First: It is the only warm, human touch of the war period. Second: It is a business proposition of efficiency. We want our men to keep in the finest of physical condition and
