INSTITUTE IS CLOSED AFTER WEEK'S WORK

Attendance and Quality of Instruction Said to Surpass Former Sessions

The sixty-fifth annual session of the Dauphin County Teachers' Insti-tute closed at noon to-day after what is regarded by educators as the most successful and enlightening meeting that it has ever held. "In the qual-lay of instruction and attendances and general progressiveness I think this was the banner year," said Pro-fressor C. S. Davis, of Steelton. One of the most encouraging re-ports made just before the teachers bade good-by to one another for an-other year was that on membership in the state educational association. It developed that 23 Dauphin coun-ty teachers have been enrolied in the state organization, and the 100 not yet enrolled have signified their in-tention of joining this year, thus making Dauphin county a banner section in the movement. The auditor's reyort showed a bal-nors elected for the ensuing term were F. O. Smith and F. E. Stengle. A numor that the institute would meet to Steptol next year instead of the Capitol City was discredited at the tast moment and the institute voted to remain in Harrisburg for its meet-ings.

Sut with all their disadvantages the Italians had steadily forced them back to the chord across the bend, so that they now occupied less that three quarters of an acre and were hemmed in on all sides. The artillery was concentrating on this fenemy party and it was believed it would be forced back across the Triver or thrown into the water.
On the way back the correspondent passed through the deserved city of Treviso, where Generals Foch. Wilson and Cadorna held the first of French and British co-operation with the Italians were made.
