Head of State Police Tells of German Disloyalty to America

Handling the disloyal German agitators in this country without gloves and urging vehemently upon an attentive audience the value of self-sacrifice, Captain George F. Lumb was the principal speaker last evening at a meeting of the Covenant Presbyterian Church. His subject was, "The Things That Follow War," and touching upon this he predicted for America a development of commerce, industrial growth and increase of inventions.

Captain Lumb, who is active head of the State Police, called upon his hearers to have no mercy on German disloyalists. He cited instances when these treasonable persons slipped poison into tobacco packed for shipment to the soldiers and ground glass into the chocolate. "Keep your eyes always open, he said, "for the loyal citizen does not object to being watched; he is proud of his loyalty, and the disloyal should be watched. Try to detect the suspicious things, for disloyalty might be right at your door."

He said that the State Police is busy ferreting out instances of disloyalty and was accomplishing much good. He quoted Benjamin Franklin's warning, that unless we all hang together we'll all hang separately.

Captain Lumb was introduced by S. T. Eby, president of the Covenant Brotherhood. There was a large crowd present.

When Help Is Needed In the Middle of the Night

All electrical devices are convenient but the Warming Pad is both convenient and necessary.

For a simple case of cold feet or for the most serious ailment that requires a hot application, the Warming Pad is the ideal device. It takes the place of a Hot Water Bottle. There is nothing to fill or refill, nothing to prepare or wait for. Just hitch a Pad to any lamp socket and in a few seconds it is giving out a constant, soothing, healing heat, at a cost no greater than that of any ordinary lamp. Cannot get too hot; can't scorch, scald or shock and there is nothing to leak, spill or get cold. Will lie flat or can be folded around the body.
