The police department has no record of an accident in that locality last night. QUAKERS OPPOSE MEASURE By Associated Press London, Wednesday, Nov. 22.— The debate preceding the vote by which the House of Commons adopt-ed an amendment to the electoral bill disfranchising conscientious ob-iectors to war quickly showed that strong advocates on behalf of the objectors to the amendment were not lacking. MAURER IS CHAIRMAN The State Commission to study old age pension systems and make a re-port to the next Legislature organ-ized at the Executive Department in the Capiol to-day by electing Representative James H. ### TAKES ENFORCED REST

TAKES ENFORCED REST Mayor J. William Bowman has been confined to his home since Sun-day with a heavy cold and sore throat. His recent strenuous ac-tivities in the various war work cam-paigns left him very tired, but he expected to be about to-day unless the weather made it inadvisable to leave his home. "It's an enforced rest," said the Mayor to-day, "and will do me good." since the beginning of the attrick

Since the beginning of the attrick the gunfire had been extremely weak. No Man's Land showed comparatively few shell craters to-'ay and this morning the Britsh guns were doing virtually all the firing along most of the front in-volved. This is a striking contrast to the Flanders region, which has been an inferno of artillery fire for weeks.

to the Flanders region, which has been an inferno of artillery fire for weeks. The Germans have attempted all of them have been smashed. The latest counter thrust-reported was made last night near Demicourt and this was dealt and promptly. The Germans, who at the first at-tack yesterday retreated or surrend-ered in dismay, were fighting desper-rately to-day to regaln a hold on their rear positions. A particularly hard hand-to-hand engagement oc-curred this morning at Flesquieres, when the infantry, accompanied by tanks, stormed this place and drove the Germans from it. The fighting about Flesquieres be-san last night but it was not until about 8 o'clock to-day that the Brit-ish made an organized assault on the town. The tanks went ahead and were engaged immediately by seven heavy German guns, which began to

were engaged immediately by seven heavy German guns, which began to fire at them point blank at short range. It was a critical moment, for while the tanks will withstand heavy fire, they cannot be expected to stand up long under big shells hurled from guns only a short distance away. The British infantry which swarm-ed through behind the tanks saw the predicament of their iron friends and deliberately charged the enemy ar-tillery with rifles and hand grenades. All the guns were captured and their crews were killed. A similar incident occurred \*at Premy Chappelle, northwest of Mar-coing, where three guns were storm-ed and their crews annihilated. Some of the most spectacular work of this nature iell to the cavatry. The

of the most spectacular work of this nature fell to the cavalry. The mounted troops got into Marcolng and Masnieres last night and in the latter town engaged in sangulnary battle with Germany infantry. An enemy battery there was giving trou-ble and a squad of horsemen charged the position, shooting or sabering the entire gun crew. Another battery at Rumilly was taken in similar fash-ion.

The Germans ran from Ribecourt with the British close at their heels. This town is a mass of ruins, partly on account of shell fire and partly from lack of repairs. The German dugouts were left intact. The occupation of Marcoing and Masnieres was a great stroke for the British, as it gave them much need-ed crossings for the Escault river and canal, which formed a natural bar-rier to the advance from this direc-tion. Cavalry, infantry and tanks were poured immediately across these passages and proceeded to work northward. Military necessity precluded the mention of cavalry in the first dis-patches regarding the present offen-sive, but it may now be said that the mounted men went into action at 11.30 o'clock yesterday mornins, after the tanks had opened the way through the barbed wire. This was one of the features of the battle in which General Pershing appeared to take deep interest while he was the front yesterday.
