

Canadian Wheat For U. S. Being Used Here For Flour

Since April of this year wheat and wheat flour have been important in greatly increased quantities from Canada. This is attributed principally to the fact that on April 16 Canada removed the duty on wheat imported into that country, which action automatically admitted Canadian wheat free of duty into the United States under the provisions of the tariff law of 1913.

According to new statistics furnished by the Bureau of Foreign and Domestic Commerce, of the Department of Commerce, 840,981 bushels of wheat were imported from Canada in September of this year, as compared with 3,289,607 bushels for the whole nine months ended with September, 1916. For the nine months ended with September of this year, we imported wheat from Canada to the extent of 21,490,269 bushels, over 14,000,000 bushels of which came in free after April 16. The imports of wheat flour during these nine months totaled

403,270 barrels, of which 297,695 barrels came in free of duty. For the corresponding nine months in 1916 the total imports were 157,289 barrels and in 1915 only 90,499 barrels. This Canadian wheat and flour is being received through every customs district on the northern border from the Atlantic to the Pacific, Buffalo leading in September with 285,119 bushels and 51,596 barrels of flour, followed by Duluth, Minnesota and Superior, Wisconsin, with 223,883 bushels of wheat and 15,751 barrels of flour, Michigan with 138,

881 bushels of wheat and 1,539 barrels of flour, Ohio with 114,096 bushels of wheat, and New York, Rochester, Vermont, Dakota, Montana and Washington with varying amounts. There is also noticeable movement of Canadian flour to the west coast. FIRE DOES LITTLE DAMAGE A small blaze in a rear room of 1228 North Cameron street, one of a row of frame houses occupied by negroes, occurred shortly after 9 o'clock last night.

Thinks He Is an Alien, but Learns He Is an American

Washington, Nov. 27.—When a German is not a German was made clear yesterday to Alexander Fred Freisheim, one of those who sought to register as an alien under President Wilson's proclamation. He came here from Germany when he was 5 years old, and Marshal Spilan has advised him, to his surprise, that the fact that his mother after

the death of his father married an American citizen resulted automatically in her children becoming Americans. Authorities here say that while only eighteen Germans who came to Washington after the declaration of war have registered their departure, many more have left without taking the trouble to register.
